

October 14, 2004

Ms. Deborah Jordan, Director
Air Management Division
United States Environmental Protection Agency
75 Hawthorne Street
San Francisco, CA 94105

Dear Ms. Jordan:

The District has completed the evaluation of the following application for a Significant Revision to a Major Facility Review Permit: This revision is associated with District Applications 6914, 7048, 7119, 7151, 8370, 8419, 8493.

The main purpose of this significant revision is to change the monitoring strategy for particulate for many sources. There is an insignificant change in emissions associated with this revision.

The following additional changes are proposed:

- Change of the responsible official;
- Renaming permitted sources to clarify actual operational use;
- Deleting sources which have been removed;
- Replacing abatement devices;
- Removal of sources which have been determined to be exempt from District permits;
- Changing conditions to incorporate the effect of new applications;
- Removing particulate monitoring for dry filters, which has been determined to be unnecessary;
- Addition of particulate monitoring for scrubbers;
- Correction of erroneous information.

The details are in the permit evaluation/statement of basis.

The District has made a preliminary decision to issue the revised Major Facility Review, but the final decision on the permit issuance will consider public and EPA comments on this preliminary decision. The notice inviting written public comments will be published in the Inter-City Express. The final date for comments is November 24, 2004.

Enclosed for your information is a copy of the proposed permit and the evaluation report/statement of basis. If you have any questions regarding this project, please call Steve A. Hill, Permit Evaluation Manager, at (415) 749-4673, fax (415) 749-5030.

Very truly yours,

Jack P. Broadbent
Executive Officer/Air Pollution Control Officer
