Plant	Plant Name	Applications	Permit Engineer	City	County
A1438	New United Motor Manufacturing, Inc.	6914, 7048, 7119, 7151, 8370, 8419, 8493	C. Lee	Fremont	Alameda

The District proposed a significant permit revision for this facility on October 14, 2004.

The main purpose of this revision was to:

- Change the responsible official;
- Rename permitted sources to clarify actual operational use;
- Delete permitted sources which have been removed;
- Replace abatement devices;
- Remove sources which have been determined to be exempt from District permits;
- Change conditions to incorporate the effect of new applications;
- Remove particulate monitoring for dry filters, which has been determined to be unnecessary;
- Add particulate monitoring for scrubbers;
- Correct erroneous information.

The public comment period for the proposed significant revision ended on November 24, 2004. The EPA comment periods on the significant revision ended on November 27, 2004. No comments were received from EPA, the public, or the facility. The District has decided to issue the permit.

Enclosed is a copy of the final revised permit. If you have any questions regarding this permit, please call Steve A Hill, Air Quality Engineering Manager, at: (415) 749-4673.

Sincerely yours,

Jack P. Broadbent
Executive Officer/APCO
