

August 24, 2005

Ms. Deborah Jordan
Director, Air Management Division
United States Environmental Protection Agency
75 Hawthorne Street
San Francisco, CA 94105

Dear Ms. Jordan:

The requirement for public and EPA review of the proposed renewal of the Major Facility Review Permit for the facility identified below has been completed:

Plant	Plant Name	Application	Permit Engineer	City	County
A1629	Cardinal Cogen, Inc.	6648	D. Jang	Palo Alto	Santa Clara

The District proposed a Notice Inviting Written Public Comments of the MFR permit for this facility on December 6, 2004. No comments were received from the public or EPA.

In response to comments from the facility, several typographical corrections were made to the Title V permit. In addition, the heat input rate for the S-6 Gas Turbine listed in Table II-A was corrected pursuant to NSR application 11916. Because this change in heat input rating is a change in source description that is not an alteration of applicable requirements and does not involve any physical or operational changes to the gas turbine, it is considered to be an administrative amendment pursuant to Regulation 2-6-201. Therefore, public notice is not required for this change.

The District has decided to issue the permit.

A copy of the final revised permit is enclosed. If you have any questions regarding this permit, please call Steve A Hill, Air Quality Engineering Manager, at (415) 749-4673.

Sincerely yours,

Jack P. Broadbent
Executive Officer/APCO
