Dear Ms. Jordan:

The purpose of this letter is to cancel the Major Facility Review (Title V) permit and to issue a synthetic minor permit for this facility.

(Secretary)

This facility was issued a Title V permit on February 24, 2000, because it was a major source of 1-1-1-trichloroethane. On September 20, 2004, the facility submitted a synthetic minor permit application because actual emissions of hazardous air pollutants had dropped significantly due to process changes and because the facility was able to propose conditions that will keep the facility's potential to emit below the major source thresholds. The District has reviewed the proposal, has determined that it is adequate to keep the facility's emissions below the major source thresholds, and therefore is issuing a synthetic minor permit to the facility.

MARIN COUNTY

Harold C. Brown, Jr.

The cancellation of the Title V permit and issuance of the synthetic minor permit are effective as of the date of this letter. The synthetic minor permit evaluation and conditions are attached.

NAPA COUNTY

Brad Wagenknecht

The District will also notify the California Air Resources Board and the facility in writing that the permit has been cancelled.
