

NOTICE INVITING WRITTEN PUBLIC COMMENTS

NOTICE is hereby given that the Executive Officer/Air Pollution Control Officer of the Bay Area Air Quality Management District invites interested persons to submit written public comments on the proposed Significant Revision to a Major Facility Review Permit for the following Facility:

Application	Facility #	Facility Name	Address, City	Type of Operation
8583	A2066	Waste Management of Alameda County	10840 Altamont Pass Road Livermore, CA 94550	Solid Waste Landfill

The main purpose of this revision is to increase the maximum rated heat input of two landfill gas fired turbines. This application will result in the following emission increases: 3.5 tons/year of non-precursor organic compounds and 18.5 tons/year of sulfur dioxide. The turbines will comply with BACT for organic compound and sulfur dioxide emissions. Emission reduction credits will not be required. In addition, this revision will incorporate the July 8, 2004 amendments to the NSPS for Stationary Gas Turbines (40 CFR Part 60 Subpart GG). These amendments eliminate the need for fuel bound nitrogen content monitoring at these turbines. Consequently, the Section V.B Custom Schedule of Compliance is not necessary and will be deleted. The Responsible Official for this site will be changed and several citation errors will be corrected.

The Executive Officer/Air Pollution Control Officer invites written comment on the above proposed significant revision. Comments must be received by November 19, 2004. The public may also request a public hearing for this significant revision.

Significant revisions of Major Facility Review Permits are also subject to review and approval by US EPA. If US EPA has not objected to a proposed significant revision and District has not addressed a public comment in a satisfactory manner, the public may petition US EPA, Region IX, Operating Permits Section at 75 Hawthorne Street, San Francisco, CA 94105, within 60 days after the end of US EPA's review, to reconsider the issuance of the permit. The beginning and end of EPA's review period can be found on EPA Region IX's website at: <http://www.epa.gov/region09/air/permit/index.html>.

The proposed revised Major Facility Review permit, application, and evaluation report are available for public inspection at the District Headquarters, 939 Ellis Street, San Francisco, CA, in the Permit Services Division, 3rd Floor. For an appointment, please call May Leung at (415) 749-4729. The proposed permit and evaluation report are also available on the District's webpage at the following address: <http://www.baaqmd.gov/pmt/t5/t5publicnotices/t5publicnotices.asp>. Written comments should be directed to Carol Allen, at Bay Area Air Quality Management District, 939 Ellis Street, San Francisco, CA 94109 or by email to callen@baaqmd.gov. Any request for information or for a public hearing should be directed to Carol Allen at (415) 749-4702.

Dated at San Francisco, the 5th day of October, 2004.

Signed by Peter Hess for Jack P. Broadbent
