

NOTICE INVITING WRITTEN PUBLIC COMMENTS

NOTICE is hereby given that the Executive Officer/Air Pollution Control Officer of the Bay Area Air Quality Management District invites interested persons to submit written public comments on the proposed Significant Revision to a Major Facility Review Permit for the following Facility:

Applications	Facility #	Facility Name	Address, City	Type of Operation
9907	A2246	TriCities Waste Management	7010 Auto Mall Parkway Fremont, CA 94538	Municipal Solid Waste Landfill

The primary purpose of this revision is to add a Permit Shield to subsume the monitoring requirements of Regulation 8, Rule 2 "Miscellaneous Operations" with those of Regulation 8, Rule 40 "Aeration of Contaminated Soil and Removal of Underground Storage Tanks". The Regulation 8, Rule 2 total carbon test procedure is subsumed by the Regulation 8, Rule 40 VOC test procedure for the Landfill S-1 because testing performed pursuant to Regulation 8-40-604 will rule out the need to test in accordance with Regulation 8-2-601.

There is no increase of emissions associated with the proposed changes to the permit. However, this proposal constitutes a Significant Permit Revision as defined by Regulation 2-6-226.3 because it includes a significant change to an applicable monitoring condition.

The Executive Officer/Air Pollution Control Officer invites written comment on the proposed significant revision described above. Comments must be received by June 29, 2006. The public may also request a public hearing for this significant revision.

Significant revisions of Major Facility Review Permits are also subject to review and approval by US EPA. If US EPA has not objected to a proposed significant revision and District has not addressed a public comment in a satisfactory manner, the public may petition US EPA, Region IX, Operating Permits Section at 75 Hawthorne Street, San Francisco, CA 94105, within 60 days after the end of US EPA's review, to reconsider the issuance of the permit. The beginning and end of EPA's review period can be found on EPA Region IX's website at: <http://www.epa.gov/region09/air/permit/index.html>.

The proposed revised Major Facility Review permit, application, and evaluation report are available for public inspection at the District Headquarters, 939 Ellis Street, San Francisco, CA, in the Permit Services Division, 3rd Floor. For an appointment, please call May Leung at (415) 749-4729. The proposed permit and evaluation report are also available on the District's webpage at the following address: http://www.baaqmd.gov/pmt/title_v/public_notices.htm. Written comments should be directed to Ted Hull, at Bay Area Air Quality Management District, 939 Ellis Street, San Francisco, CA 94109 or by email to thull@baaqmd.gov. Any request for information or for a public hearing should be directed to Ted Hull at (415) 749-4919.

Dated at San Francisco, the 15th day of May 2006.
