EXECUTIVE OFFICER/APCO

Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is proposing a minor revision to the Major Facility Review Permit for the Sonoma County Central Landfill and is submitting the permit to EPA for review.

The purpose for this minor permit revision is to add the Pilot Scale Landfill Gas Compression Plant S-15 to the permit; and to modify permit conditions to reflect alternative wellhead standards and recent landfill gas collection system construction activities. This revision consolidates permitting activities reviewed and approved under BAAQMD Permit Applications #14593, 16497, and 16582. The engineering evaluation reports for each application are included in the Permit Evaluation and Statement of Basis for this revision.

This revision is minor pursuant to BAAQMD Regulation 2-6-215 and will be effective immediately. The permit will be formally re-issued after EPA review. This revision is not subject to public comment and therefore, requires no public notice.

The proposed Major Facility Review Permit and the statement of basis report can be viewed on the BAAQMD website at:

http://www.baaqmd.gov/pmt/title_v/public_notices.htm.

We will also send the documents to you via the Electronic Permit Submittal System. If you have any questions on this matter, please call Dennis Jang, Senior Air Quality Engineer, at (415) 749-4707.

Sincerely,

Signed by Jack P. Broadbent
Jack P. Broadbent
Executive Officer/Air Pollution Control Officer
