Shelia Young

Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is proposing a minor revision to the Major Facility Review Permit for City of Mountain View (Shoreline) at Facility Number A2740.

The main purpose of this minor revision is to add a new source: S-14 Diesel Engine for Emergency Standby Generator. In addition, the future effective dates for several federal requirements have passed, and these requirements are now in effect. These future effective dates, which are listed in Tables IV-A, IV-C, VII-A, and VII-C, will be deleted.

A copy of the proposed permit and the engineering evaluation are enclosed for your information. If you have any questions on this matter, please call **Steve Hill, Air Quality Engineering Manager, at (415) 749-4673.**

Very truly yours,

Jack P. Broadbent
Executive Officer/
Air Pollution Control Officer
