This is to advise you that the Bay Area Air Quality Management District is issuing a minor revision to the Major Facility Review Permit for the City of Santa Clara Landfill. (Facility # A3464) pursuant to Application # 14620.

The District proposed a minor permit revision for this facility on August 2, 2006. The primary purpose of the revision is a change of permit conditions to facilitate a modification of the landfill gas collection system. The modification involves the replacement of gas collection wells and the removal of old, unproductive wells. There is no increase of emissions associated with this revision.
