**EXECUTIVE  
OFFICER/APCO**

The purpose of this revision is to change the permit condition ID# 7492 for loading racks, and modification of fifteen internal floating roof storage tanks which constitutes replacing single seal by double seals. The revision also includes updating the requirements of Regulation 8, Rules 5, 18, and 25, as a result of revisions to Rules 5, and 18, and deletion of Rule 25. There will be no increase in the annual regulated air pollutant emissions as a result of the proposed changes.

The District has made a preliminary decision to issue the revised Major Facility Review, but the final decision on the permit issuance will consider EPA comments on this preliminary decision.

Enclosed for your information is a copy of the proposed permit and the statement of basis/evaluation report. If you have any questions regarding this project, please call Steve A. Hill, Permit Evaluation Manager, at (415) 749-4673, fax (415) 749-5030.

Very truly yours,

---
