Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is proposing a minor revision to the Major Facility Review Permit for the Keller Canyon Landfill Company (Facility Number A4618), and is submitting the permit to EPA for its 45-day review period.

The main purpose of this proposed minor permit revision is to incorporate modifications of the landfill gas collection system description and approved landfill gas control system options into the MFR Permit for Site # A4618. Per the applicant's request, the District is changing the Responsible Official and Plant Contact information. The District is also updating regulatory citations and amendment dates, clarifying requirements, and correcting errors.

This proposed revision will not result in any emission increases. This revision is minor pursuant to BAAQMD Regulation 2-6-215 and will be effective immediately. The permit will be formally re-issued after EPA review. This revision is not subject to public comment and therefore, requires no public notice.

A copy of the proposed revisions to the Major Facility Review Permit, a statement of basis report for application numbers 20205 and 23461 and the engineering reports for application numbers 20204, 15304, and 23460 can be viewed and/or downloaded on the District website at the following address:  
<http://www.baaqmd.gov/Divisions/Engineering/Title-V-Permit-Programs/Title-V-Permits/Contra-Costa/A4618/Keller-Canyon-Landfill-Company.aspx>. We will also send copies of the documents to you via the Electronic Permit Submittal System. If you have any questions on this matter, please call Dennis Jang, Senior Air Quality Engineer, at: (415) 749-4707, fax (415) 749-5030.

Sincerely,

Signed by Jeff McKay for Jack P. Broadbent
