Re: Title V Semi-Annual Monitoring Report  
Crockett Cogeneration #A8664

Dear Sir,

Attached is the Title V Monitoring Report from Crockett Cogeneration, for the period from September 1, 2011 to February 29, 2012. During this period we have maintained continuous compliance with all monitoring requirements under the Title V monitoring program with the exception of one deviation that was reported to the BAAQMD on October 23, 2011 and is listed below.

Date & Times	Incident Number	Inoperative Monitor	Breakdown/ Exceedance	Source Affected
10/22/11	ID# 06B95	N/A	Exceedance	S-205

In Table 1, we have provided a complete listing of all monitoring requirements as specified in our Title V Major Facility Operating Permit. The monitoring frequency indicates whether periodic (P) or continuous (C) monitoring is required. For periodic monitoring, the frequency of the monitoring has also been shown, either annual (A), quarterly (Q), monthly (M), daily (D), or on an event basis (E). The letter (N) represents if no monitoring is required. The compliance status for each of these is indicated as either continuous or intermittent. If you have any questions, please contact Chris Sargent at (510) 787-4101.
