The public comment period on the proposed renewal permit ended on May 26, 2006. The EPA comment period ended on June 4, 2006. No comments were received from the public, EPA, or ARB.

The facility commented that the NOx emission concentration limits cited in the Applicable Limits and Compliance Monitoring Requirements tables for the gas turbines and auxiliary boiler should include averaging periods. In response to this comment, NOx emission averaging periods have been added to Tables VII-A and VII-B.

The District has decided to issue the renewal permit. The final permit can be viewed and/or downloaded on the BAAQMD website at http://www.baaqmd.gov/pmt/title_v/public_notices.htm. We will also send the final permit via the Electronic Permit Submittal System. If you have any questions regarding this permit, please call Barry Young, Air Quality Engineering Manager, at: (415) 749-4721.

Sincerely yours,

Signed by Jack P. Broadbent
