AIR QUALITY
MANAGEMENT
DISTRICT**

Ms. Deborah Jordan
Director, Air Division
United States Environmental Protection Agency
75 Hawthorne Street
San Francisco, CA 94105

Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is issuing the initial Major Facility Review Permit for the following facility.

Facility	Facility Name	Application	Permit Engineer	City	County
B2183	Metcalf Energy Center, LLC	2805	D. Jang	San Jose	Santa Clara

The 30-day public comment period on the proposed permit ended on May 27, 2011 and the 45-day EPA review period ended on June 10, 2011. No comments were received from the public, EPA, or ARB. We received several written comments from the facility. In response to some of those comments, we have made the following administrative changes to the permit.

- Corrected the mailing address, responsible official, and facility contact on the cover page of the permit
- Corrected a typographical error in Table VII A that listed the CO emission limit during shutdown as 43.8 lbs. instead of 902 lbs.
- Deleted the term "source test" from the monitoring type column in Table VII D for the heat input rate limit and NOx, CO, and POC emission limits specified in condition #22231, parts 1 and 3, respectively, because source testing is not required as monitoring for these limits
- Corrected the mailing address, designated representative, and alternate designated representative listed in the Acid Rain Permit in part IX of the permit

The District has decided to issue the renewal permit. The final permit can be viewed and/or downloaded on the BAAQMD website at
