NOTICE is hereby given that the Executive Officer/Air Pollution Control Officer of the Bay Area Air Quality Management District invites interested persons to submit written public comments on the proposed Initial Major Facility Review Permit for the following facility:

Application #	Facility #	Facility Name	Address	Type of Operation
26328	B8136	Russell City Energy Company, LLC	3862 Depot Road Hayward CA 94545	Power Plant

Major facilities are required to obtain operating permits under Title V of the 1990 Clean Air Act Amendments, the Federal Operating Permit Program and the District's Regulation 2, Rule 6 - Major Facility Review. The permits summarize all air-related requirements that apply to each source of emissions at each facility.

The Russell City Energy Company, LLC is a major facility because it has the potential to emit more than 100 tons per year each of nitrogen oxides and carbon monoxide.

The Air Pollution Control Officer invites written comment on the proposed initial Title V permit for the facility listed above. Comments must be received by October 7, 2016. Any interested person may also request a public hearing for this permit.

Major Facility Review Permits are also subject to review and approval by US EPA. If US EPA has not objected to a proposed permit and the District has not addressed a public comment in a satisfactory manner, the public may petition US EPA, Region 9, Operating Permits Section at 75 Hawthorne Street, San Francisco, CA 94105, within 60 days after the end of the 45-day US EPA review period, to reconsider the decision to not object to the permit. The beginning and end of the EPA review period can be found on the EPA Region 9 website at:
