

NOTICE INVITING WRITTEN PUBLIC COMMENTS

NOTICE is hereby given that the Executive Officer/Air Pollution Control Officer of the Bay Area Air Quality Management District invites interested persons to submit written public comments on the proposed initial Major Facility Review Permit for the following facility:

Application #	Facility #	Facility Name	Address	Type of Operation
23464	B8478	United Spiral Pipe, LLC	900 East 3 rd Street Pittsburg, CA 94565	Spiral Pipe Manufacturing

Major facilities are required to obtain operating permits under Title V of the 1990 Clean Air Act Amendments, the Federal Operating Permit Program and the District's Regulation 2, Rule 6 - Major Facility Review. The permits summarize all air-related requirements that apply to each source of emissions at each facility. Major Facilities have the potential to emit pollutants at rates in excess of the Major source thresholds. However, the projected actual emissions from the new United Spiral Pipe, LLC facility are far below the Major source thresholds.

The Air Pollution Control Officer invites written comment on the proposed initial Title V permit for the facility listed above. Comments must be received by May 11, 2012. Any interested person may also request a public hearing for this permit.

Major Facility Review Permits are also subject to review and approval by US EPA. If US EPA has not objected to a proposed permit and District has not addressed a public comment in a satisfactory manner, the public may petition US EPA, Region IX, Operating Permits Section at 75 Hawthorne Street, San Francisco, CA 94105, within 60 days after the end of US EPA's review, to reconsider the decision to not object to the permit. The beginning and end of EPA's review period can be found on the EPA Region IX website at:
