

# CLEAN AIR

## COMMUNITY OPEN HOUSES

The Bay Area Air Quality Management District invites you to participate in an Open House to learn about potential new control measures and strategies that may be included in the 2016 Clean Air Plan/Regional Climate Protection Strategy (CAP/RCPS) and about current climate protection efforts and initiatives.

### Clean Air Plan (CAP) and Regional Climate Protection Strategy (RCPS):

The CAP/RCPS will be a roadmap for the Air District's efforts over the next few years to reduce air pollution, protect public health and the global climate. The CAP is required by the California Clean Air Act to identify potential rules, control measures and strategies for the Bay Area to implement in order to meet state standards for ozone or "smog". The CAP update will include the Bay Area's first ever comprehensive RCPS, which will identify potential rules, control measures and strategies that the Air District can pursue to reduce greenhouse gases in the Bay Area.

### We want to hear from you! We will:

- Solicit your ideas and suggestions for rules, control measures, and strategies to include in the CAP/RCPS.
- Provide information on potential rules, control measures and strategies already identified for inclusion in the CAP/RCPS.
- Discuss next steps in the CAP/RCPS development process.

Contacts: Christy Riviere [criviere@baaqmd.gov](mailto:criviere@baaqmd.gov), 415-749-4925 for Clean Air Plan; Dave Burch [dburch@baaqmd.gov](mailto:dburch@baaqmd.gov), 415-749-4641 for Regional Climate Protection Strategy

If you cannot attend an Open House, you can review the draft control measures for the CAP/RCPS and submit comments electronically to Dave Burch and Christy Riviere or via mail to 939 Ellis Street, San Francisco, CA 94109. **The public comment period closes on March 9, 2016.** However, public comments will also be solicited and accepted when the public draft of the 2016 Clean Air Plan/Regional Climate Protection Strategy and environmental document are released later in 2016.
