

Proposed Changes to Regulation 2-4

Section	Change
2-4-203	Added PM _{2.5} to the list of pollutants. Bankable Pollutants: Emission reduction credits of the following pollutants may be deposited in the emissions bank: precursor organic compounds, non-precursor organic compounds, particulate matter, PM _{2.5} , PM ₁₀ , sulfur dioxide, nitrogen oxides, and carbon monoxide.
2-4-301.8	Deleted section that allows for emission reduction credits from mobile sources. Emission reduction credits resulting from mobile source reductions calculated in accordance with the procedures of Regulation 2-2-607.
