Air District Public Workshops

Refinery Emissions Tracking and Mitigation Rules

The Bay Area Air Quality Management District (Air District) invites you to participate in public workshops to discuss a proposed **Refinery Emissions Tracking Rule** (Regulation 12-15) and a proposed **Refinery Emissions Mitigation Rule** (Regulation 12-16). The proposed Tracking Rule will enhance requirements for tracking refinery emissions and crude oil composition. The proposed Mitigation Rule will require refineries to mitigate significant increases in emissions that may occur due to changes in crude oil composition or other causes.

For more information, visit the Air District website at www.baaqmd.gov/refine. The Air District is the regional agency responsible for protecting air quality in the nine-county Bay Area.

Benicia

Monday, March 16, 2015

5:30 PM-7:00 PM
