From: Wileen Ellen Sweet, West Marin Standing Together Climate/Environment Committee

Dear Mr. Stone et al ,

We support the Comments by 350Bay Area provided to you on September 25, 2017, and urge you all to take all necessary action to fulfill the promises made in the District's 2017 Clean Air Plan. The 2017 Plan was applauded by citizens around the Bay area region as a serious commitment by BAAQMD to greenhouse gas reductions necessary to meet state and regional targets. These targets are an urgent matter for the health of our region, state, nation and planet.

Citizens around the Bay area expect you to fulfill the mandate given to you by doing whatever is needed to protect the health and welfare of everyone, and not to back away from this responsibility for political reasons. The health and safety of our children and grandchildren is in your hands.

Sincerely,

Wileen Ellen Sweet
