

**Refinery Technical Working Group (RTWG) – Meeting #5**
**Wednesday, July 8, 2026, 5:30–7:30 PM**
**Bay Area Air District, Richmond Headquarters – 4114 Lakeside Dr., Richmond**
**Agenda**

Item	TIME	AGENDA ITEM	DETAILS
1	5:30 PM	Welcome & Introductions	Review of Meeting #5 agenda, RTWG purpose, participation norms, and reflection of previous RTWG Meeting topics.
2	5:40 PM	Rule Development Process and Concept Paper Stage	Overview of the impetus for the rule development effort, where the Air District is in the rule development process, how the concept paper fits into the next phase of public engagement, and what types of analysis will occur later in the rule development process.
3	5:50 PM	Summary of Input Received to Date	Summary of key themes raised through prior RTWG discussion and other stakeholder input.
4	5:55 PM	Flaring Emissions Data Context	Air District staff will share data related to categories of flaring activity to provide additional context for the discussion of potential rule amendment concepts. This data is intended to support discussion and is not the full emissions reduction analysis.
5	6:10 PM	Updated Potential Rule Amendment Concepts for Rules 12-11 and 12-12	Air District staff will walk through the updated potential rule amendment concepts, including what has changed and what feedback is most useful before the concept paper is published for broader public comment.
6	7:25 PM	Closing	Discuss next steps in the rule development process.
7	7:30 PM	Adjourn
