Dear Ms. Hiratzka,

Please convey to the board, for the meeting on July 21, my very strong support for as strong a version of the proposed Rule 6-5 as possible. As a person with asthma, I cannot exercise outdoors when the PM 2.5 level is high. We need to require refineries to stop polluting our air with their cat crackers. One would think the Bay Area would be ahead in this regulation, but apparently even Texas is ahead of us, at least in some places, in requiring wet gas scrubbers at their refineries! Please support this rule which, to my understanding, would require such scrubbers in the refineries in the Bay Area.

Thank you.

Bonnie Gold
