

# AB 617 Public Workshop

## January 31, 2018

### Community Panel

Community  
powered  
Self determination,  
voluntary groups  
that identify local  
air pollution,  
challenges and  
ways help solve the  
persistent  
problems.

## Ken Szutu, Community Science Monitoring Program Vallejo

The network was started after an incident that sent more than 120 people to emergency room on September 20 2016.

He wants to share what they learned from monitoring air quality on the community level and make suggestions on how communities, BAAQMD and CARB can work together to get the most benefit from community monitoring.

Brian Butler, Community  
Organizer  
Greenaction Bayview Hunters  
Point.

# Ernesto Arevalo, Interim Director of CBE, Northern Calif.
