CERP Vision and Principles

What is a vision?

- Blue sky thinking - how do you picture the future?
- A collaborative process in which a community creates the future it wants by identifying their purpose, values, and shared aspirations for the future.

"Our vision is an atmosphere that enables people and the planet to thrive – a stabilized climate with warming limited to 1.5C and drastically reduced air pollution."

<https://www.ccacoalition.org/en/resources/2030-vision-statement>

What are guiding principles?

- Core values that guide how to achieve the vision
- Help to refine goals and strategies during the CERP process

“To intentionally integrate, on a Citywide basis, the principle of 'fair and just' in all the City does in order to achieve equitable opportunities for all people and communities”

Value of Vision and Principles

- Brings community together to share the change they would like to see
- Reflects what matters most and strengthens trust within the community
- Focuses in on priorities and helps guide investment

Vision and Principles Discussion

- Brainstorm on Vision - What's your vision for improved air quality in East Oakland?
 - a. To start, let's go around and have everyone provide one comment verbally or add a sticky note to this [Jamboard](#).
- Thoughts on April CSC #7 Activity
 - a. How should the CSC work together to develop the Vision and Principles (i.e. discuss in break out groups, discuss as a large group, etc.)?
 - b. Can you share a past experience as a leader and/or participant that will help guide the CSC's work?
- Questions/Comments?

Next Steps

Based on today's discussion, co-leads will work with the co-chairs to design an activity and bring a draft idea for a Vision Statement for review. In April at CSC #7, CSC members will participate in this activity and have the opportunity to approve the CERP Vision and Principles through a vote.
