3. **APPROVAL OF THE MINUTES OF MARCH 21, 2022**

The Committee reviewed the meeting agenda and approved the March 21, 2022, Meeting Minutes with edits in a roll call vote.

Committee Comments

Jeffrey Kilbreth; Clarified a comment that was recorded in the March 21, 2022, meeting summary notes on Toxic Air Contaminants (TAC). Requested that the comment be revised within the meeting notes.

Nancy Aguirre; Requested that meeting notes capture all comments during the meeting and asked for further clarity in the summary notes overall.

Marisol Cantu; Supported Nancy Aguirre’s request. Requested that the going forward the minutes have more transparency, accountability and there is an opportunity for members to follow up. Requested that the summary notes capture comments beyond just the Steering Committee Members and Public and include BAAQMD staff comments.

Patricia A. Daniels; Emphasized that Brown Act Meeting prioritize action items as well as conversations between committee members. Agreed with previous statements regarding the importance of accuracy within meeting notes including correct spelling and notation.

Kevin G. Ruano Hernandez; Asked how formal procedures and next steps including continuing the incorporation of Environmental Justice Updates will move forward following the end of this term for the committee members and members chose to begin a new term.

Hakim Johnson; Supported Patricia A. Daniel’s previous comment. Requested that the meeting minutes be captured at the same level of detail captured for the Board meetings

Committee Action

Kevin G. Ruano Hernandez made a motion, seconded by Patricia A. Daniels to approve the minutes of March 21, 2022, minutes with all the necessary corrections. The motion carried by the following vote of the Committee:

4. AD HOC UPDATES

The Path to Clean Air Steering Committee and the public received updates on the active Ad Hoc working groups.

Committee Comment

Nancy Aguirre; Reported an update on Community Description Ad Hoc co-leads. Reported positive progress on the Community Description Ad Hoc an announced a possible June completion.

Patricia A. Daniels; Clarified that the Community description Ad Hoc Committee is in the pending stage with preparing all pertinent information related to the completion with a target day of June 2022. Asked for clarity on the initial update for the purpose of the meeting summary.

Jeffrey Kilbreth; Reported an update on Technical Assessment Ad Hoc co-leads. Reported strong progress on the analysis of pollution in the area. Also noted a significant backlog of items that are worth continuing to investigate. Requested Steering Committee and BAAQMD staff look further into these items as some strategies would benefit from researching the questions that continue to be raised during the research and analysis phase. Stated that they have everything we need for the general picture of Community Description and Strategy Development. Raised attention to the challenges and benefits that occur when there is an increasing in monitoring Toxic Air Contaminants (TAC's). Flagged that the committee could use one more technical analytical person.

Kevin G. Ruano Hernandez; Asked for clarification of TAC.

Jeffrey Kilbreth; Responded that TAC's are Toxic Contaminants.

Public Comment

None.

Committee Action

None; receive and file.

5. HEALTH PRESENTATION: AIR POLLUTION AND HEALTH RISKS

The Committee and the public received a health focused presentation from Dr. Neeta Thakur, Dr. Lily Wu (OEHHA) and Air District Staff on the connection between air pollution exposure and health endpoints.

Public Comments

None.

Committee Comments

Y’Anad Burrell; Asked for an age range of the seventy children and also the ethnicity breakdown referenced during the presentation. Also asked if the study referenced was still occurring and if it was available to reference online.

Kevin G. Ruano Hernandez; Emphasized how much he enjoyed the presentation and learning about air pollution. Requested more information on Richmond Heights and asked why Richmond Heights data was not available.

Lucia Castello; Requested further clarification on the geographic region recorded during the study. Asked for clarity as to whether the study looked specifically within Richmond city limits.

Dr. Henry Clark; Commented on the some of the information presented including redlining as aged information. Suggested the information be more up to date.

Jeffrey Kilbreth; Spoke to the industrial history of Richmond. Addressed affordable housing and housing availability as an important issue in Richmond and the state of California. Commented that this is a housing affordability and availability issue and not always a redlining issue. Asked about the chance that some of the TAC’s with known respiratory consequences are currently underrated in studies, similar to the history of Asthma. Asked a question back to the group on what collective action can be taken to further understand the chronic health effects.

Hakim Johnson; Highlighted that there is a difference between perceived community resources and hazards. Asked if there was any air monitoring data and ER data to determine activity occurring during ER visits that would potentially warrant an asthma attack

Committee Action

None; receive and file.

6. NEXT STEPS FOR STRATEGY DEVELOPMENT

Air District staff presented next steps for Strategy Development, following next month’s Technical Assessment presentation.

Committee Comments

Y’Anad Burrell; Asked for clarification and context as to what future meetings would look like if Committee Members continued in large group form as opposed to smaller groups moving forward.

Dr. O. Omotoso; Supported smaller groups and a second meeting to go into more details on specific strategies to understand further in order to come to a consensus on this conversation.

Alfredo Rafael Angulo; Agreed that smaller groups would be helpful. Additionally, suggested that strategies be broken down into different buckets and the smaller groups can be broken down accordingly for the convenience of time.

Y'Anad Burrell; Clarified the previous comment to have another meeting in a big group setting to first determine what the buckets will be and then following that meeting break into smaller groups.

Dr. O. Omotoso; Further clarified his previous comment and clarified that it would be helpful to have an additional meeting on strategies before making a decision.

Heidi Swillinger; Would like to not break it up into groups, unless it is a huge group, and it would be unattainable.

Jessica Range; Expressed concern of truncated meetings and having smaller groups. Expressed support for the idea of breaking the strategies into buckets.

Micaela Zaragoza-Soto; Concerned about larger group dynamics and recognizes that smaller groups fosters more conversation for more reserved members. Also recognizes the benefits of the larger group. Asked if the smaller groups would be an additional meeting on top of the reoccurring monthly meeting. Showed support for Dr. O. Omotoso's comment on having an additional meeting specifically to discuss strategies.

Nancy Aguirre; Supported previous comments for an additional meeting and information before coming to a consensus on how to move forward with meeting structure. Expressed appreciation for Jamboard that was previously used as a tool to capture everyone's input.

Lucia Castello; Agreed that Ad Hocs will support the group and smaller group sizes support more engagement. Ad Hocs may benefit from having staff to answer questions that may arise during discussions. Supported the idea of both small and larger groups.

Luz Gomez; Spoke to the value of in person meetings moving forward. Suggested two different breakouts for strategy buckets and partners.

Hakim Johnson; Supported previous comments around larger group and in person meetings that incorporate breakout rooms. Supported smaller breakout sessions in person that encourage different members to speak up.

Dr. Henry Clark; Supported smaller groups.

Public Comments

None.

7. ENVIRONMENTAL JUSTICE UPDATES

The Path to Clean Air Steering Committee and the public will share and receive Environmental Justice updates.

Committee Comments

Marisol Cantu: Reported that 500 Chevron workers are on one month of striking. Also reported that five flaring events occurred at the refinery the previous Saturday night. Spoke to the importance of this issue as having the potential to be an environmental disaster within our lifetime and hope that BAAQMD is still doing their due diligence regarding this environmental and social justice issue.

Dr. O. Omotoso: Flagged an upcoming meeting for Physicians for Social Responsibility on Climate Health and Equity. Will follow up with link.

Kevin G. Ruano Hernandez: Encouraged members to attend the Community Advisory Council for the Air District and spoke to its importance.

Nancy Aguirre: Thanked everyone for their presentation and asked Marisol to let members how they can help workers.

Public Comments

None.

8. PUBLIC COMMENTS ON NON-AGENDA MATTERS

Any member of the Committee, or its staff, on his or her own initiative or in response to questions posed by the public, may: ask a question for clarification, make a brief announcement or report on his or her own activities, provide a reference to staff regarding factual information, request staff to report back at a subsequent meeting conversing any matter or take action to direct staff to a place of matter of business on a future agenda (Gov't Code 54954.2)

Public Comment

Michael Kent; Spoke in response to the concern of the potential impact of Chevron strike and reported that the Director of Hazardous Martial Program stated that Chevron completed their due diligence prior to the strike and is in compliance with Richmond Industrial Safety ordinance.

Julia Luongo; Works in the office of Community Air Protection at CARB. Announced that there is an upcoming Board Meeting on May 19, 2022, relating to the statewide strategy and program blueprint of AB 617.

9. COMMITTEE MEMBER COMMENTS

Committee Comments

Nancy Aguirre; Requested that the Committee and staff discuss a plan for future meetings so that all members have equal time to speak and the same opportunity to be heard. Spoke to the importance of listening to each member.

Dr. O. Omotoso; Suggested that there be a standard time limit for comments and members ask one question per turn. If a member has multiple questions, then that member can ask additional questions once everyone else has had a turn to go once.

Kevin G. Ruano Hernandez; Suggested that meetings times be extended in order to answer all questions and grant members the same amount of time for speaking.

Marcia Raymond; Requested a process for monitoring the time allocated for each member to comment and present questions.

Heidi Swillinger; Requested that Committee Members also be timed, similar to the process during Public Comments for both questions and comments.

Public Comments

None.

Committee Action

None; receive and file.

BAY AREA AIR QUALITY MANAGEMENT DISTRICT
Memorandum

To: Members of the Path to Clean Air Steering Committee

From: Veronica Eady
Senior Deputy Executive Officer of Policy & Equity

Date: May 16, 2022

Re: Technical Assessment Insights: Part II

RECOMMENDED ACTION

None; receive and file.

BACKGROUND

The technical assessment, in combination with other types of information, is intended to help link community air quality concerns to strategies and mitigation efforts, and also to set targets and track progress. Staff in the Air District's Assessment, Inventory, and Modeling (AIM) and Meteorology and Measurement (M&M) divisions have been preparing analyses of technical information such as data from emissions inventories, air quality modeling, and air quality monitoring, insights from which are intended to assist the Community Steering Committee with selecting and prioritizing strategies to reduce pollution emissions and exposure.

DISCUSSION

Continuing from the previous technical assessment insights presentation in March 2022, Air District staff will share additional insights from analyses of air quality modeling and air quality monitoring data. Topics for air quality modeling include how exposure information supplements emissions inventory data and how modeled impacts of sources vary across different categories of community concerns. For air monitoring data, staff will share analyses of pollution levels near roadways, spatial variability in pollution levels, and examples of short-term and recurring air quality events. The presentation will conclude with examples of connecting community air quality concerns to strategies to reduce pollution emissions and exposure.
