West Oakland
Truck Management Plan
being developed by the City of Oakland and the Port of Oakland

Presentation by Patricia McGowan
Senior Planner, City of Oakland
What is this Truck Management Plan?

- City and Port plan to address truck circulation and truck parking in West Oakland
- Reflect and incorporate community input
- Identify actions and responsibilities across City departments and Port
What area will the TMP cover?
What do we want the Plan to accomplish?

Quality of Life
• We want trucks to be less disruptive to the residents and businesses in West Oakland

Communication
• We want truck drivers to know where they can and cannot drive; and what the parking controls are

Safety
• We want it to be safer near the truck routes

Potential Solutions under Review

• **Signs and Communication:** More signs, improved signs, and better communication with truck drivers and with the community.

• **Truck Parking:** More restrictions on where trucks and trailers can park in West Oakland, and better promotion of available parking and trucker services at the Port and former Oakland Army Base.

• **Truck Movement and Safety:** Facilitate consistent use of Truck Routes, and improve pedestrian and bike safety at key intersections near freeways that are heavily used by trucks.

• **Enforcement:** Improve training and enforcement of no-parking areas, and target enforcement in problem locations and at problem times.
