Re: Report Back from Committee Chair Davina Hurt’s Meeting with Bay Area
    Environmental Justice Leaders

RECOMMENDED ACTION

None; receive and file.

BACKGROUND

In recognition of the critical role community voices will play in the development of the Ad Hoc Committee on Equity, Access, and Inclusion, Air District staff arranged a meeting between Committee Chair Hurt and Bay Area environmental justice leadership on May 26, 2020. In preparation, staff consulted with leadership from four organizations that currently work on executed contracts and/or grants from the Air District. Representatives from organizations and groups from Vallejo, Bayview/Hunters Point, Richmond, and East and West Oakland provided comments on the Committee Charter and shaped an agenda for the meeting with Chair Hurt. In addition to providing a space for formal introductions, the meeting also served as a forum for community leaders to provide a fundamental environmental justice orientation and advise on future Committee work plan priorities.

DISCUSSION

Environmental justice leaders from all Assembly Bill 617 priority areas were invited to attend the discussion with Chair Hurt. Those present represented organizations and groups from Vallejo, Bayview/Hunters Point, Richmond, and East and West Oakland. The groups shared past and present air quality concerns and provided their opinions on future partnership with the Ad Hoc Committee. Discussion topics of note include, decades-long air quality related systemic wrongs and health disparities, the need for more robust enforcement efforts, and the development of methodologically sound air monitoring strategies. Community leaders expressed the need to coordinate comprehensive solutions to their concerns, incorporating the ideas of planning, permitting, public health, vulnerability, and exposure.
All in attendance recognized and acknowledged respect for the unique sophistication and experience of community leaders. To that end, Air District staff are committed to establishing equitable and inclusive strategies that ensure community voices are fully and clearly heard during formal Board and Committee meetings. To bring us closer to our goal of equity, community voices must be welcomed and valued and trusting relationships between the Air District and the communities we serve must continue to be fostered with intention.

Re: Discussion of Key Deliverables of the Ad Hoc Committee on Equity, Access, and Inclusion

RECOMMENDED ACTION

None; receive and file.

DISCUSSION

At the March 25, 2020 meeting, the Ad Hoc Committee considered a staff proposal on key equity, access, and inclusion deliverables relative to internal and external programs. The Ad Hoc Committee received many comments from the community on these deliverables at this meeting, and in subsequent conversations when Ad Hoc Committee Chair Hurt met with Bay Area environmental justice leadership. The comments received focused on a variety of themes, including, but not limited to planning, permits, exposure, proximity, land use, enforcement, public health, disparities, impact, and vulnerability.

Staff is proposing to use these themes to build a workplan at the direction of the Ad Hoc Committee which would be recommended for adoption by the Board of Directors. The workplan would define key equity, access, and inclusion deliverables for the Air District moving forward. In order to prepare the workplan, staff has proposed a few key deliverables for the Ad Hoc Committee and the public to consider:

- Form a Community Advisory Committee: Staff would like to work with community leaders to create a Community Advisory Committee (or similar type community body) to advise the Ad Hoc Committee on policy or program recommendations to the Board of Directors on issues that impact communities.

- Design a Community Benefits Program: Develop a Community Benefits Program, which would redirect penalty funds to programs within affected communities.

- Change Permitting Practices: Propose changes to the Air District’s permitting program to be more health protective in communities inequitably burdened by air pollution.
• Review the Advisory Council Recruitment Process: Review the process used to fill vacant positions on the Air District’s Advisory Council.

Staff anticipates that the Ad Hoc Committee and the public may have other items to consider in the workplan and will discuss additional deliverable options and the timeline for workplan development as part of this agenda item.
