1. Staff Report: Corrective Action Plan to Implement Recommendations from the HR Management Performance Audit
1. Background

On December 15, 2021, the Air District Board of Directors (Board) reviewed the scores for bids for management audit services and authorized the execution of a contract with the highest scoring vendor, Sjoberg Evashenk, for independent management audit services in an amount not to exceed $250,000.

The initial task order under the contract called for a first deliverable in March 2022, to inform new Fiscal Year Ending (FYE) 2022 staffing authorization, and a second deliverable in May 2022, to provide information regarding Air District-wide risk and to rank the Air District’s divisions for further audit priority.

Sjoberg Evashenk presented the FYE 2022 staffing authorization review to the Board on April 6, 2022. The Auditor presented the conclusion that (a) the allocation of additional positions in the FYE 2022 budget is reasonable and consistent with their independent analysis; (b) internal control weaknesses led to the filling of 10 of 26 of the positions at the end of February 2022; and (c) despite these weaknesses, it is evident that the need for the remaining 16 positions is supported by current workload demands and Air District priorities.

During the April 6, 2022, Board meeting, the Board directed staff to execute a second Task Order under the management audit services contract with Sjoberg Evashenk that would require the immediate commencement of a performance audit of Human Resources Management Functions at the Air District. The Human Resources audit is underway and was concluded in October 2022.

On November 2nd, 2022, the Board’s Administration Committee heard the Management Audit Report on Air District Human Resources Functions. The report called for 22 recommendations to address multiple findings. After hearing the report, the Administration Committee of the Board directed staff to develop this action plan to address the recommendations within 60 days of that date (before January 3, 2023).
2. Action Plan Scope

This action plan outlines the activities and high-level scheduling estimates required to implement all recommendations called for in the November 2nd, 2022, Management Audit Report on Air District Human Resources Functions.

The recommendations in the report call for the introduction of policy, procedures, and processes that provide needed controls and transparency into Human Resources functions at the Air District. The report calls for 22 recommendations across the following three categories of findings:

- Compensation Plan
- Position Control
- Processes and Controls

3. Audit Recommendation Breakdown

Recommendations in each of the three categories have been further labeled to provide insight into their nature and scope. Labels were selected that indicate the likely level of executive guidance and the magnitude of cost that may be needed to implement the recommendation. The labels and their descriptions are:

- **Administrative Policy and Procedures Developed by Staff**
  Recommendations in this category are low-level policies and procedures that will be followed on a day-to-day basis to allow for appropriate controls to be exercised by staff. Staff will develop these internal policies and procedures.

- **Outside Services Required**
  Recommendations in this category require substantial resources and/or expertise that are not available utilizing current Air District staff. Implementing these recommendations will require engaging in outside services through a procurement and approval of the Board of Directors.

- **Legal Opinion**
  Two recommendations provided by the Management Performance Audit specifically call for legal opinions that will inform future decision making by the Board and the Executive team. District Counsel and outside labor counsel will be consulted for these recommendations.

- **Organizational Structure**
  Two recommendations provided by the Management Performance Audit specifically call for reorganization of District functions to provide for controls through segregation of duties. Implementing these recommendations will
require transition planning with staff, and new processes that control the authorization of payroll functions across divisions.

- **Strategy Initiative Board Guidance Recommended**

  These recommendations have the potential to cause strategic shifts and substantial change throughout the agency. It is likely that implementing these recommendations will require engaging in outside services through procurement, and Board guidance is recommended.

  Breaking down the recommendations into the three main categories and labels yields the charts in Figure 1:

  ![Figure 1 Audit Recommendations by Category and Label](image)

  The darkest shade in Figure 1 are **Administrative Policy and Procedures Developed by Staff** recommendations that affect day-to-day Human Resources processes. Other labels in the pie graphs denote recommendations that are more significant and lend themselves to more visibility and governance. As may be expected, the **Position Management** category contains many recommendations that affect day-to-day procedures and controls, whereas the **Compensation Plan** category contains recommendations that could affect agency-wide strategic goals, such as the Air District’s ability to attract and retain employees.
Figure 2 shows all recommendations broken down by label and illustrates that half of all recommendations may be implemented by staff, while the other half are Major Recommendations that may require outside services and guidance by executive management or the Board of Directors.

2.1.a Develop position management protocols that verify Board authorization, funding of position, management authorization for filling and personnel selection, proper process documentation, and consistent with Human Resources guidelines and best practices.

- c. Revising classifications for management personnel such that each provides clear characteristics that differentiate positions based on similarity of duties, responsibilities, and qualifications.

Staff will initiate a procurement for outside services to conduct an independent classification study that includes the scope listed under recommendation 2.4.

Once developed, update position descriptions at points during which the status of the position undergoes change, such as being vacated or filled, evaluated for reclassification, transferred to another division, etc., to keep them as up to date as practical.

Staff will include the steps recommended in 2.5 into an AOP for position status changes.

BAY AREA AIR QUALITY MANAGEMENT DISTRICT
Memorandum

From: Sharon L. Landers

Re: Proposed Amendments to Administrative Code - Creation of New Finance & Administration Committee and Time Limits for Public Comment

RECOMMENDED ACTION

Recommend to the Board of Directors that the Board revise the Administrative Code to (i) combine the current Administration Committee and Budget & Finance Committee into a new Finance & Administration Committee, which would take over the functions of those two existing committees; and (ii) revise the provision on time limits for public comment to specify that time limits will be established for each item on a meeting’s agenda by the Director chairing the meeting.

BACKGROUND

The standing committees of the Board of Directors are provided for under Section 6 of Division I of the Administrative Code. There are currently six standing committees: Administration, Legislative, Mobile Source and Climate Impacts, Community Equity Health & Justice, Stationary Source and Climate Impacts, and Budget & Finance. In the past, the functions of the Budget & Finance Committee have at times been consolidated within the Administration Committee. The Administrative Code was amended most recently with respect to this issue on February 16, 2022, when the Budget & Finance Committee was re-established as a separate, stand-alone committee.

Section 4.9 of Division I of the Administrative Code sets forth time limits for public comment. Section 4.9 currently states that members of the public who wish to address the Board on non-agenda items shall have a limit of five minutes each and shall address the Board under a time reserved for “public presentation,” and that members of the public who wish to speak on agendized items shall have a limit of three minutes each.
DISCUSSION

Staff recommend consolidating the functions of the Administration Committee and Budget & Finance Committee into a new Finance & Administration Committee. The recent management audit revealed a need for greater attention to staffing levels, the capacity and work of the agency, and strategic and long-term planning to meet the Board’s goals and needs. Combining the work of the current Administration and Budget & Finance committees will allow for a concentrated focus on these policy, staffing and fiscal needs in a single, holistic committee. Doing so will provide for greater connectivity between the Air District’s staff, personnel and management decisions and the agency’s budget and finance considerations.

In addition, consolidating these committees will help integrate staff work and will save time, reduce bureaucracy, and improve overall agency efficiency. It will also reduce barriers to public participation by putting these related issues into one space for public engagement.

Combining these committees will also help enhance Board participation in committee work. Board member availability for multiple committees and filling committee vacancies has been challenging in the past few years. Conducting the Air District’s business through fewer committees and fewer committee meetings will make it easier to fill out committee rosters by reducing the total number of committee seats that need to be filled.

Staff also recommend revising Section 4.9, regarding time limits for public comment. The current language of Section 4.9, which states that members of the public are allowed five minutes to comment on non-agenda items and three minutes to comment on agendized items, does not comport with the Board’s current practice. Moreover, it is not sound policy to specify a set time limit to apply in all situations. Depending on the meeting and the topic, it may be prudent to allow more time or less time for public comment. A better approach would be to provide flexibility to allow the Director chairing the meeting (i.e., Board Chairperson, Committee Chairperson, or other Director standing in for the Board or Committee Chairperson) to establish the appropriate time limits for each item. Staff propose revising Section 4.9 to create such a flexible approach.

All of these recommended revisions are shown in the attached redline version of Section 4.9 (on time limits for public comment) and the relevant portions of Section 6 (on Board committees). A clean version showing what the proposed amendments would look like in final form is also attached.

BUDGET CONSIDERATION/FINANCIAL IMPACT

None. There would likely be a small cost savings by eliminating some committee meetings as a result of combining the Administration and Budget & Finance committees.
Respectfully submitted,

Sharon L. Landers
