The Committee and staff discussed the status of the California Air Resources Board's (CARB) development of zero-emission greenhouse gas (GHG) standards for new space and water heaters sold in California; hope that Greenhouse Gas Reduction Funding allocations will continue to go towards cost-effective programs that reduce greenhouse gases, short-lived climate pollutants, and related air pollution and exposure; whether there is federal funding allocated for clean air centers; the suggestion of partnering with Representative Jared Huffman, as he sits on the U.S. House Committee on Natural Resources; Bay Area Congressional members' committee assignments; the ways in which the Air District plans to brief new members of Congress on the Air District's priorities and areas of advocacy; the fact that on December 18, 2024, the U.S. Environmental Protection Agency (EPA) granted waivers to implement and enforce CARB's Advanced Clean Cars II regulations for light-duty vehicles, and its "Omnibus" low-NOx regulation

for heavy-duty highway and off-road vehicles and engines, and whether the new Presidential Administration can reserve those actions; federal and state aspects of adopting additional regulatory and incentive programs to promote use of lower lead and no-lead alternatives at general aviation airports; whether there are legal impediments that would prevent the Air District from prohibiting and/or regulating fireplace woodsmoke more aggressively; and whether air districts are able to regulate indoor air quality.

The Committee and staff discussed whether it is anticipated that the third attempt to pass a bill regarding Vessel Speed Reduction for Ocean-Going Vessels will also result in the bill being held and dying in a legislative appropriations committee; the suggestion of changing the name of the bill regarding Vessel Speed Reduction for Ocean-Going Vessels to one that is less sentimental (compared to former titles); how to best mitigate anticipated pushback and perceived risk associated with bills that would limit the abilities of homeowners associations; whether the Air District should continue to consider a position on the issue of CARB Air District Board Member Compensation; and bills of interest to the Air District that were passed during the most recent Legislative Session.
