Cost Recovery Background

Revenue Sources in Fiscal Year End (FYE) 2024

- The Air District has many programs and activities that are funded with fees.
- Fees are governed by Regulation 3.
- Annually, we analyze whether revenue covers the cost of the work through **Cost Recovery.**

Cost Recovery Background

What programs/work (expenses) are supported by fees?*

Covered by Regulation 3 Fees	Not Covered by Regulation 3 Fees
<ul style="list-style-type: none"> • Permitting programs • Notification programs (asbestos, open burn) • Inspections of regulated industries • Compliance assistance/enforcement of permitted and registered facilities • Source Testing at permitted facilities • Rule development for regulated industries • Emissions inventory from regulated industries • Facility-wide Health Risk Assessments 	<ul style="list-style-type: none"> • Ambient Air Monitoring • Climate change work for non-permitted sources • Communications • Mobile sources • Planning • Rule development for non-permitted sources • Strategic Incentives – “Grants” (e.g., wood-burning device replacement, Carl Moyer Program, Vehicle Buy-Back)

*These lists are not exhaustive.

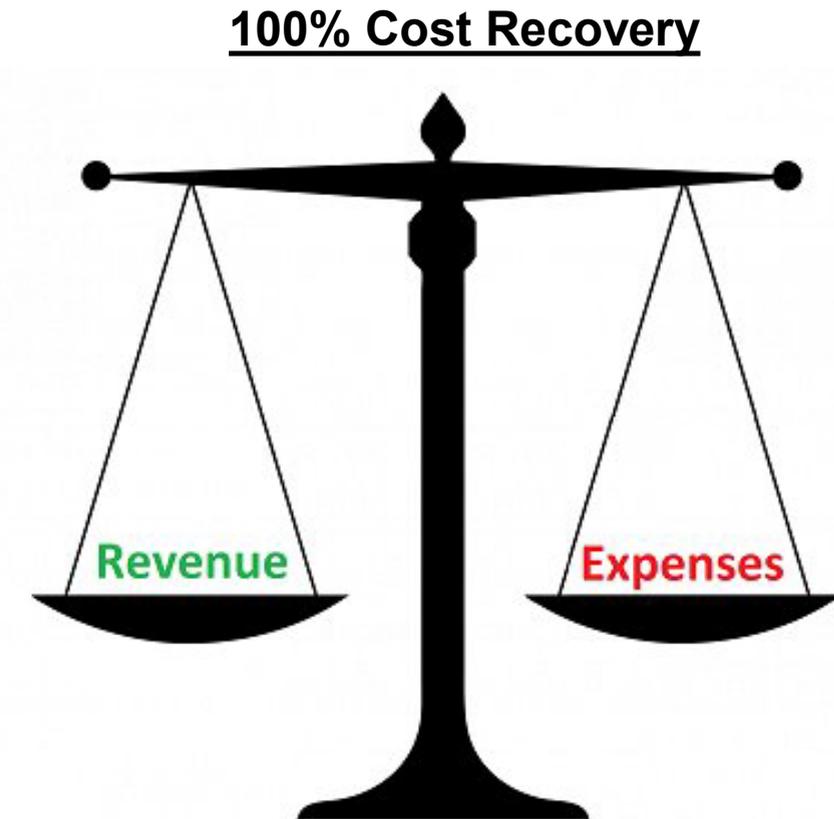

Cost Recovery Background

- Air District has the authority to recover the costs from its regulatory activities.
- In December 2022, the Board set a goal of 100% cost recovery.
- The Air District shall not “increase any existing fees for authority-to-construct permits or permits to operate by more than 15 percent in any calendar year.” California Health & Safety Code section 41512.7(b)

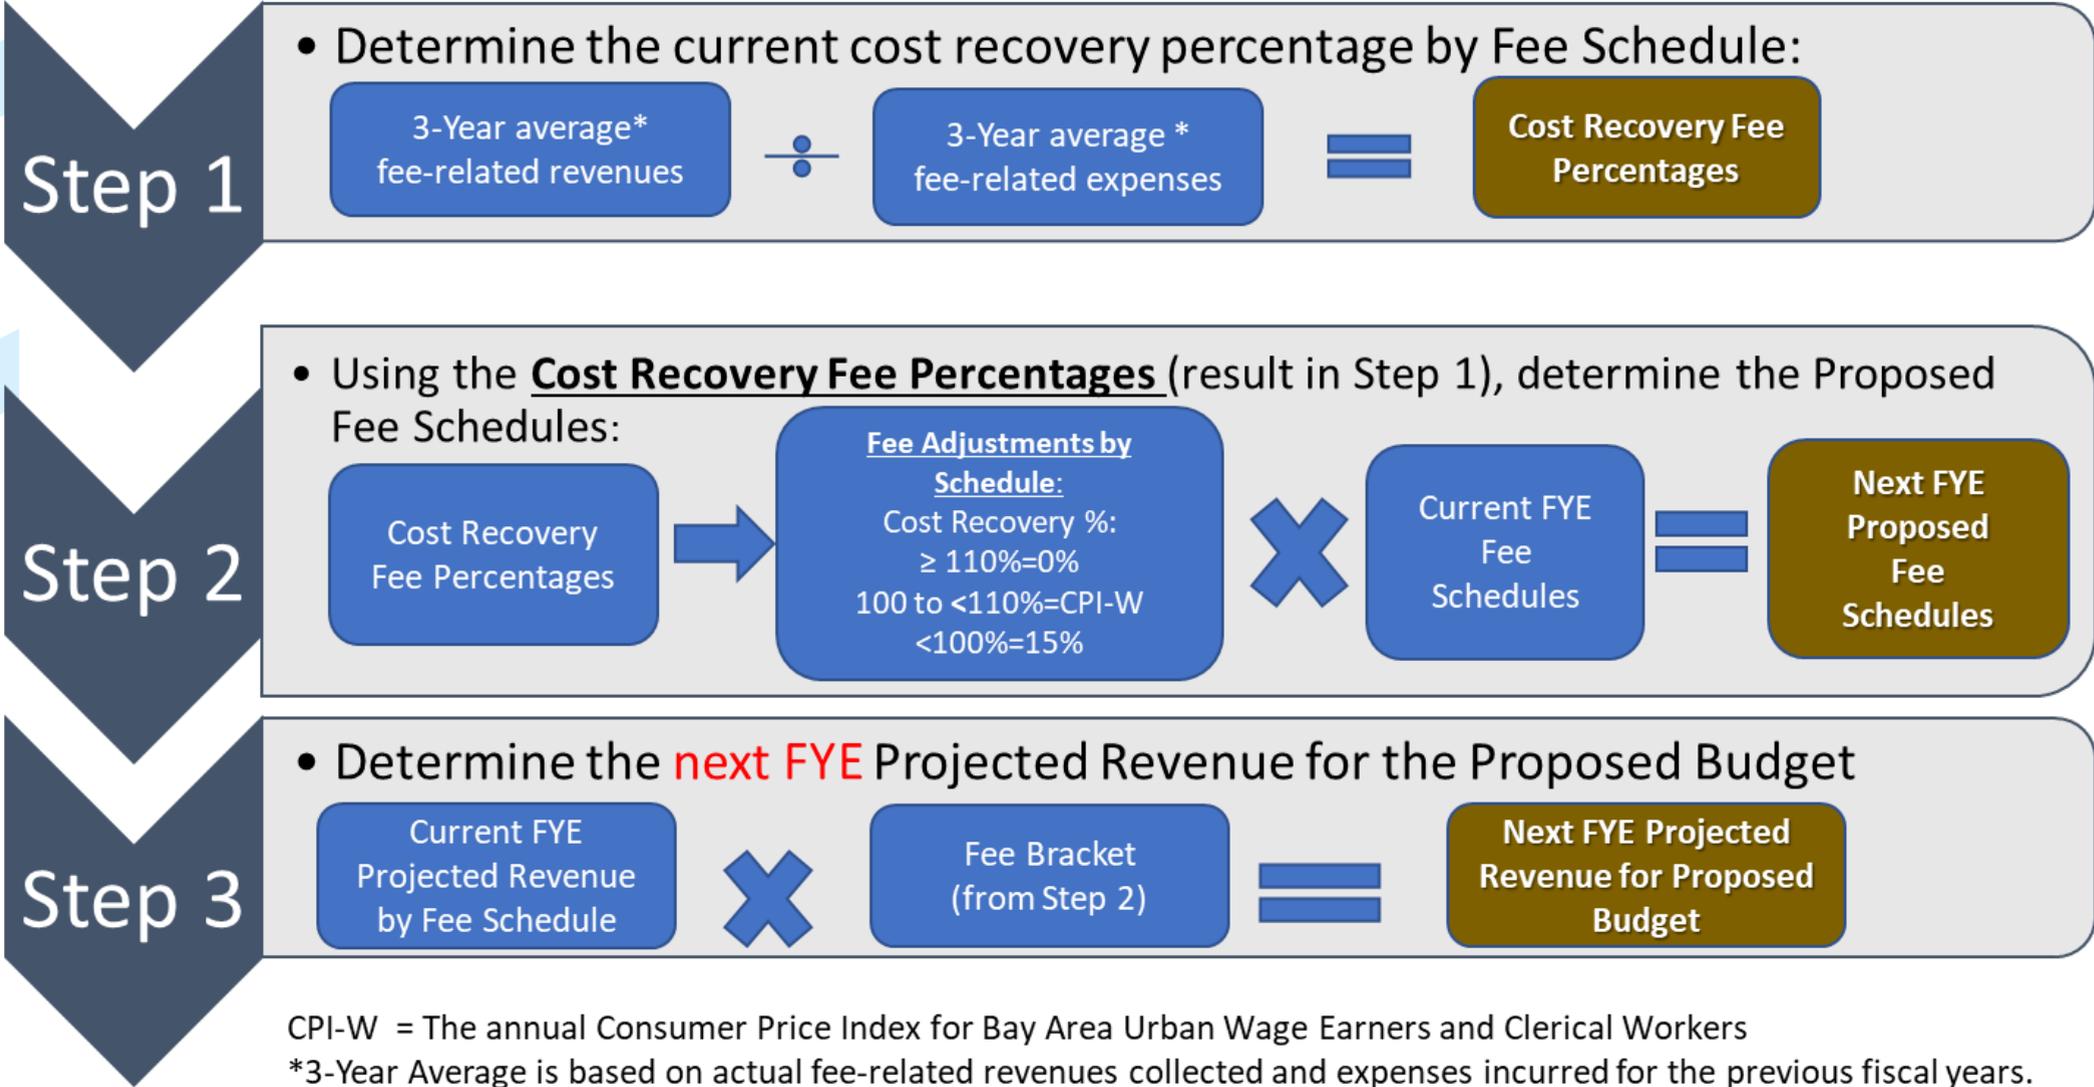

Cost Recovery Background (cont.)

Cost recovery is balancing the revenue collected with the expenses for the work.

- The ratio of revenue to expenses determines the level of cost recovery.
- The level of cost recovery determines how fees/fee schedules are amended and by what percentage.
- The cost recovery factors are not static.

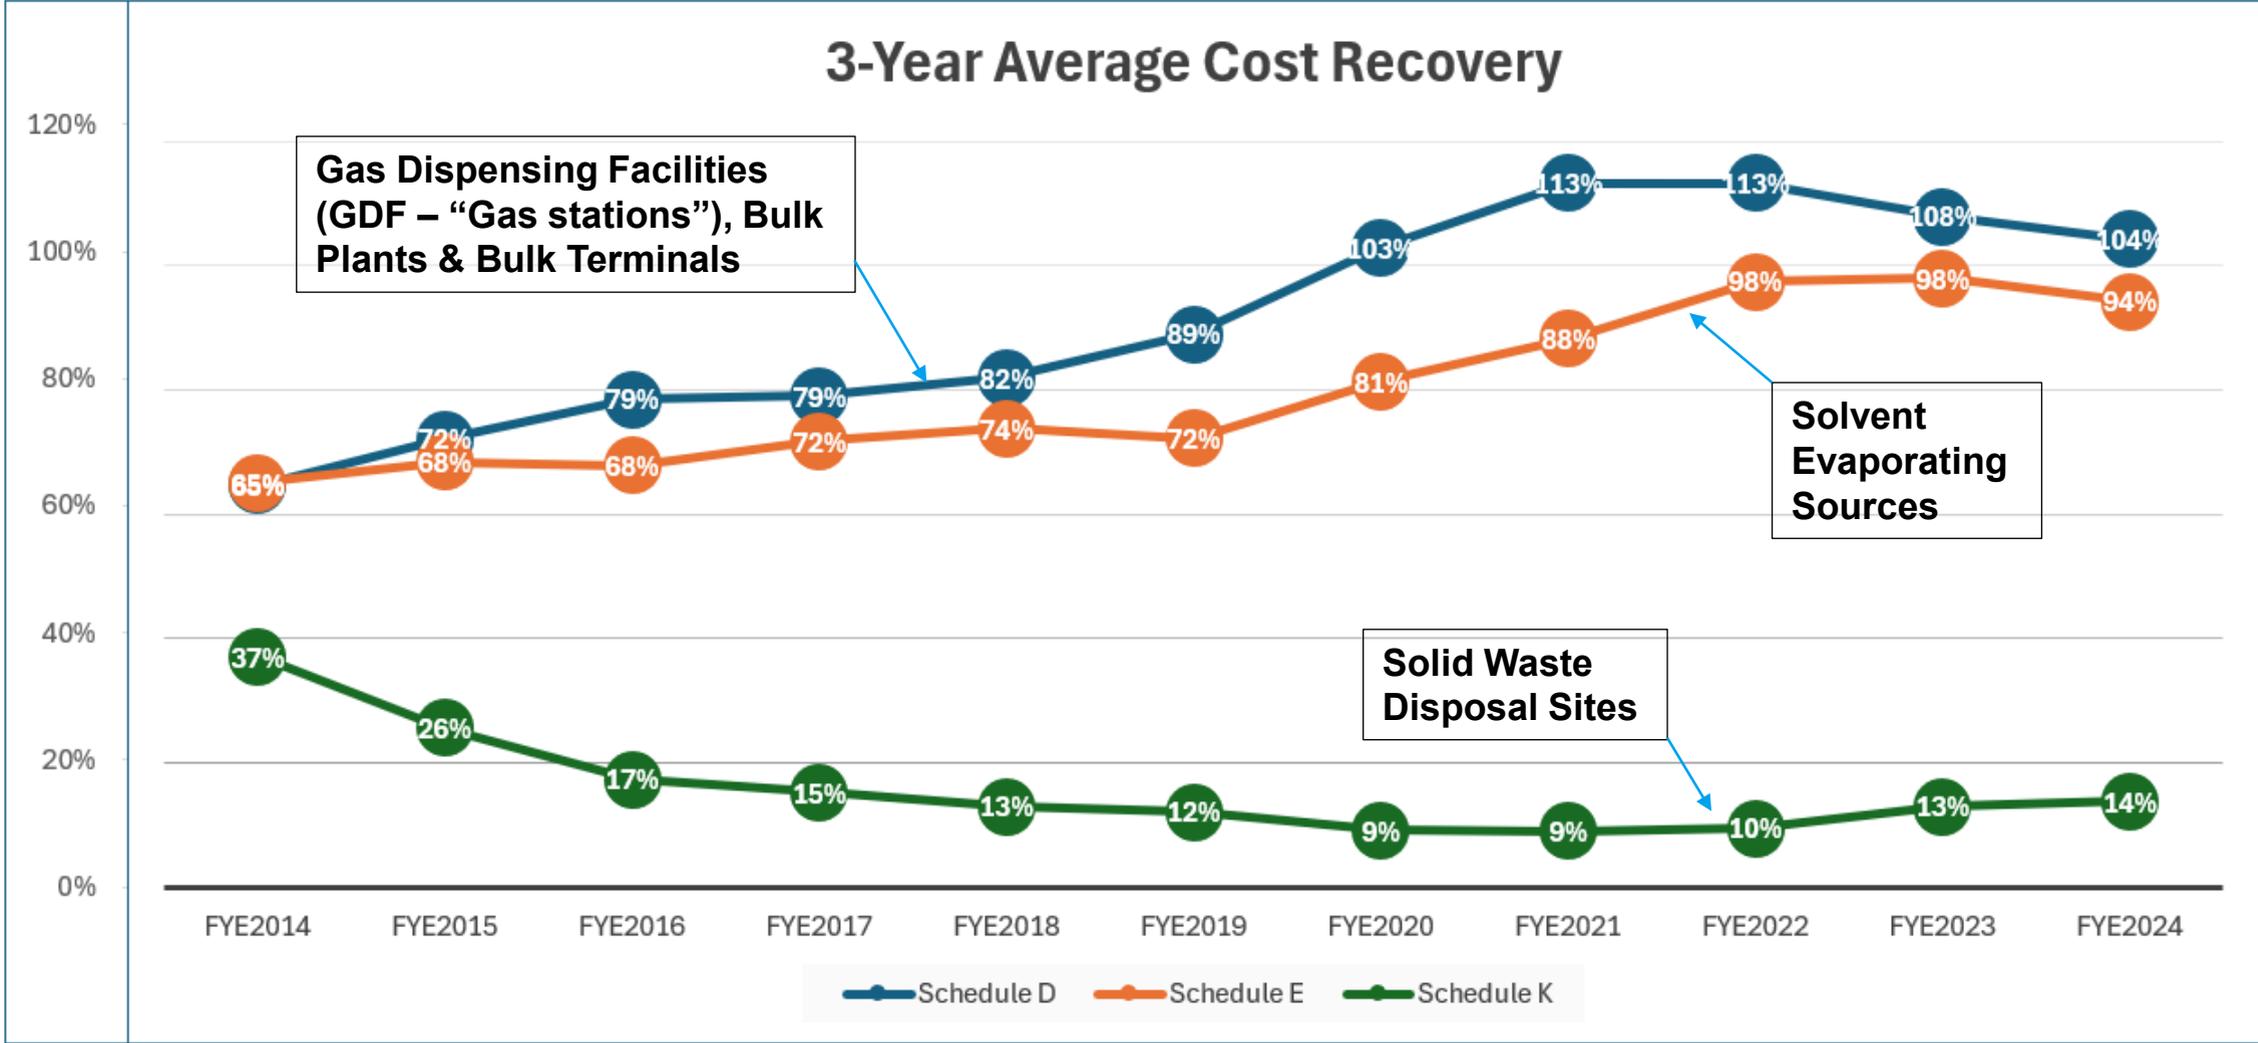

Cost Recovery Background (cont.)

Cost Recovery Background: Limitations

- Facilities or programs that are below cost recovery are not paying their fair share. The gap is closed with other revenue sources.
- Some fee schedules may take years to reach 100% cost recovery.
- Cost recovery analyzes past revenue and cost data.
- Cost recovery does not account for work backlog or level of service.
- Cost recovery does not account for required/future resource needs.
- A fee schedule's cost recovery rate does not reflect whether adequate resources exist.

* Includes Schedule M revenue

Proposed Fee Regulation Amendments

Other Proposals

Schedule C – Stationary Containers for the Storage of Organic Liquids

- Align calculation for the Risk Assessment Fee (RAF) consistent with other schedules.

Schedule D.A – Gasoline Transfer at GDFs

- Increase the RAF by 15% in Schedule D.A.4.b consistent with existing GDFs for the same work.

Proposed Fee Regulation Amendments

Other Proposals

- Increase fees in Section 300, Schedule I and Schedule M by CPI-W.
- Update out-of-date references
- General language clean up

Proposed Fee Regulation Amendments

Update Small Business Definition: Section 3-209

Small Business: A business with no more than 10 employees and gross annual income of no more than **\$750,000** that is not an affiliate of a non-small business.

Impact: Reduced Hearing Board fees & may qualify for reduced permit application fees.

Proposed change:

- Increase gross income limit from \$750,000 to \$1,500,000.

Amendment Impacts: Large Facilities

Public hearing to consider adoption of amendments to 2 fee schedules	July 2, 2025

Summary of Public Comments

Key public comments received since April 16:

- There should be periodic workshops that report on expenditures and how service is improving with regards to high-fee schedules. (Western States Petroleum Association, WSPA)
- Staff should bill time to specific projects (e.g., facility, device) (WSPA)
- Concerned that some proposed fee increases are greater than the rate of inflation (City of Pinole)

Summary of Public Comments (cont.)

- Air District should evaluate the increase in permit cost to representative small, medium, and large businesses over the last 8 years. (California Council for Environmental and Economic Balance, CCEEB)
- Service is not improving, and costs are not being adequately contained. (CCEEB)
- Air District should delay fee increases until after the Corrective Action Plan has been implemented (CCEEB)
- Air District should forecast fee increases for 3-5 years so the regulated community can plan ahead. (CCEEB)

Recommended Action

No action is requested today – this public hearing is for considering and taking public testimony on the proposed amendments only.*

The Board of Directors will consider adoption of the proposed amendments to fee schedules A, B, D, E, F, G-1 through G-5, H, K, P and W, and other related changes, on **June 4, 2025**.

The Board of Directors will consider adoption of the proposed amendments to fee schedules S and V on **July 2, 2025**.*

*Any proposed amendments to Schedules L, R, S or V require two public hearings that are at least 30 days apart.

Bay Area Clean Air Foundation

AGENDA: 22

Bay Area Clean Air Foundation (Foundation) Background

Created in 2008 to:

- Provide financial, administrative, programmatic, and other forms of support to the Air District; and
- Engage in activities that further such purpose

2024 Progress & Updates

Off-site Mitigation Funds: Mission Rock Project

- \$62,500 expended in project funding and \$6,200 in administrative funds
- 48 Vehicle Buy Back scrappage projects in San Francisco

Reformulated Gas Settlement Fund

- Has funded three cycles (from 2009 – 2025)
- 3rd and final cycle: \$1.71 million (M) funds awarded
 - Eight projects funded; currently in monitoring phase

2025 Workplan

- Continue to monitor active projects and award remaining prior year revenue: \$257,000 - Shoreline Terminals LLC
- Oversee and administer currently funded projects
- Respond to new requests for Foundation to provide offsite mitigation support for California Environmental Quality Act
- Continue to evaluate opportunities for donations and new funding

Consideration of State Legislation

Board of Directors Meeting

May 7, 2025

Alan Abbs

Legislative Officer

Legislative and Government Affairs

Recommended Action

Adopt the following positions on current State Legislation introduced as an Assembly Bill (AB) or a Senate Bill (SB):

- 1. Support AB 674 (Connolly) – Clean Cars 4 All Program**
- 2. Support AB 1106 (Rodriguez) – State Air Resources Board: regional air quality incident response program**
- 3. Support AB 1352 (Solache) – Community air protection programs: financial support**
- 4. Support SB 69 (McNerney) – Clean Cars 4 All Program**
- 5. Work With Author AB 914 (Garcia) – Air pollution: indirect sources: toxic air contaminants**
- 6. Watch SB 34 (Richardson) – Air pollution: South Coast Air Quality Management District: mobile sources: public seaports**

The Policy, Grants, and Technology Committee voted to recommend these items for Board adoption at its meeting on April 16, 2025.

AB 674 (Connolly)

Clean Cars 4 All Program

This bill would make changes to the Clean Cars 4 All program that could result in more predictable incentive funding to air districts currently implementing a program.

Status: Introduced on February 14, 2025, and amended on March 10, 2025, to include substantive language. This bill was double-referred to the Assembly Transportation Committee and the Assembly Natural Resources Committee. The bill passed the Assembly Transportation Committee on April 7, 2025, and passed the Assembly Natural Resources Committee on consent on April 21, 2025. The bill will next be heard in the Assembly Appropriations Committee on April 30, 2025.

Committee Recommendation: Support

AB 1106 (Rodriguez)

State Air Resources Board: regional air quality incident response program

This bill would require the state board to expand its incident air monitoring program, subject to an appropriation by the Legislature for those purposes, to provide support for a regional network of air quality incident response centers operated by air districts.

Status: Introduced on February 20, 2025, and amended on March 24, 2025. This bill was referred to the Assembly Natural Resources Committee and passed on April 28, 2025. The bill will next be heard in the Assembly Appropriations Committee – hearing date pending.

Committee Recommendation: Support

AB 1352 (Solache)

Community air protection programs: financial support

This bill would continuously appropriate 10% of the annual proceeds of the fund to the state board to provide funding for purposes of awarding grants, providing technical assistance, supporting community participation, and offering incentives in connection with specified programs to improve air quality, thereby making an appropriation.

Status: Introduced on February 21, 2025, and amended on March 24, 2025, to include substantive language. This bill was referred to the Assembly Natural Resources Committee – hearing date pending.

Committee Recommendation: Support

SB 69 (McNerney)

Clean Cars 4 All Program

This bill would authorize a participating air district to submit a disbursement request to the state board for an amount equal to its previous 4 months of expenditures under the program if it determines that its balance of available funding for the program is less than the total amount of its expenditures under the program over the previous 4 months.

Status: Introduced on January 14, 2025, was gut and amended on March 24, 2025, and amended on April 24, 2025. This bill was referred to the Senate Environmental Quality Committee and passed on consent on April 23, 2025. The bill will next be heard in the Senate Appropriations Committee on May 5, 2025.

Committee Recommendation: Support

AB 914 (Garcia)

Air pollution: indirect sources: toxic air contaminants

This bill would require the California Air Resources Board to develop and enforce rules related to indirect sources of emissions, establish a fee for such sources, and directions on rule development mechanism.

Status: Introduced on February 19, 2025, and amended on March 24, 2025, to include substantive language. This bill was referred to the Assembly Natural Resources Committee and passed on April 28, 2025. The bill will next be heard in the Assembly Appropriations Committee – hearing date pending.

Committee Recommendation: Work With Author

SB 34 (Richardson)

Air pollution: South Coast Air Quality Management District: mobile sources: public seaports

This bill would, until January 1, 2036, prohibit the South Coast Air Quality Management District from adopting, considering adopting, or requiring that any local agency or city enforce any regulation or indirect source rule to address pollution from any mobile source that is already subject to regulation by the state board and that is associated with an operation at any public seaport or marine terminal facility at a public seaport.

Status: Introduced on December 2, 2024, amended on March 24, 2025, April 10, 2025, and April 21, 2025. This bill was double-referred to the Senate Environmental Quality Committee and the Senate Transportation Committee. The bill passed the Senate Environmental Quality Committee on April 23, 2025, and passed the Senate Transportation Committee on April 28, 2025. The bill will next be heard in the Senate Appropriations Committee – hearing date pending.

Committee Recommendation: Watch

Recap: Recommended Action

Adopt the following positions on current State Legislation introduced as an Assembly Bill (AB) or a Senate Bill (SB):

- 1. Support AB 674 (Connolly) – Clean Cars 4 All Program**
- 2. Support AB 1106 (Rodriguez) – State Air Resources Board: regional air quality incident response program**

Community Benefit Fund Disbursement Plan

Board of Directors Meeting

May 7, 2025

Latasha Washington
Community Advisory Council Member

Recommended Action

Approve the Community Advisory Council's (CAC) recommendation of "The People's Air Grant Program" with a direct grantmaking process for the disbursement of the Community Benefit Fund in a total amount of \$3 million

Background

- The Air District Board of Directors established the Community Benefit Fund, a one-time allocation of \$3 million (M) intended to be community-directed and to benefit communities overburdened by air pollution.
- On March 20, 2025, the CAC voted to recommend “The People’s Air Grant Program” with a direct grantmaking process, including CAC and environmental justice community members in the project application review and selection process.
- On April 9, 2025, the Community Equity, Health, and Justice Committee voted to recommend that the Board approve the Community Advisory Council’s recommendation of “The People’s Air Grant Program.”

Grant Program Goals

- Grantees of the program would seek to advance one or more of the following:
 - Improve air quality and reduce local air pollution disparities, with a focus on communities most affected by air pollution and environmental injustices (impacted communities).
 - Equip impacted communities with tools and resources to reduce air pollution and improve public health outcomes.
 - Provide health care resources for people experiencing health problems resulting from exposure to air pollution.

Eligible Applicants & Projects

- Applicants must be community members from Bay Area counties and require a 501(c)(3) nonprofit or public agency partner.
- Projects must focus on improving air quality, reducing pollution disparities, and supporting environmental justice communities.
- Projects should align with at least one of the Air District's Strategic Plan goals and the CAC's Environmental Justice Priorities.
- Projects must demonstrate majority of benefits directed to low-income communities.

Funding Tiers

- Tier 1: \$75,000 annually (\$150,000 over 2 years per project)
- Tier 2: \$100,000 annually (\$200,000 over 2 years per project)
- Tier 3: \$200,000 annually (\$400,000 over 2 years per project)

Grant Administration & Accountability

- **Award Process:** Grants awarded through formal agreements with monitoring requirements
- **Reporting Requirements:**
 - Interim reports (6 months) and annual evaluations
 - Review of project outcomes related to making progress toward pollution reduction and/or health improvements
- **Non-Compliance Measures:**
 - Return of unspent funds
 - Possible termination of agreements for failure to meet commitments

People's Air Grant Program Timeline

Estimated Timeframe	Direct Grantmaking Process
May 2025	Air District Begins Implementing Program
May 2025	Stage 1: CAC Prioritizes Project Types
May - October	Research and implement new policy, outreach and selection process to support community reviewers, select community reviewers.
October 2025	Stage 2: Detailed Proposal Development based on Project Types
November 2025	Stage 3: Proposal Review by CAC Ad Hoc Committee and Staff
January-February 2026	CAC & Community Equity, Health, and Justice (CEHJ) Comm. Consider Slate of Projects for Recommendation to the Board of Directors
March 2026	Board of Directors Considers Projects for Approval
April 2026	Grant Agreements Final
April 2026 - March 2028	Project Implementation

Recommended Action

Approve the Community Advisory Council's (CAC) recommendation of "The People's Air Grant Program" with a direct grantmaking process for the disbursement of the Community Benefit Fund in a total amount of \$3 million
