

BAY AREA AIR QUALITY MANAGEMENT DISTRICT

RESOLUTION No. 2019-08

A Resolution of the Board of Directors of the Bay Area Air Quality Management District Amending Regulation 3 – Fees

WHEREAS, a public hearing has been properly noticed in accordance with the provisions of Health & Safety Code sections 40725;

WHEREAS, in 2005 the Bay Area Air Quality Management District (“District”) retained the accounting firm of Stonefield Josephson, Inc. to conduct a study of the District’s fee structure for permitted and non-permitted sources in order to determine whether or not fee revenue from these regulated sources was sufficient to pay for the costs of those regulatory activities and services;

WHEREAS, Stonefield Josephson, after a thorough analysis of the District’s fee structure, revenues and associated costs, found that District fee revenue have not been sufficient to offset the costs of associated regulatory activities and reported this and other findings in *Bay Area Air Quality Management District Cost Recovery Study, Final Report, March 30, 2005* (“2005 Cost Recovery Study”);

WHEREAS, Stonefield Josephson also found that: (1) despite an across-the-board fee increase of 15 percent in fiscal year ending (FYE) 2000 and adjustments during the subsequent 5 years for inflation, a significant cost recovery gap still existed; and (2) for FYE 2004, fee revenue covered only about 60 percent of direct and indirect program activity costs, leaving a gap of approximately \$13 million to be filled with property tax revenue;

WHEREAS, Stonefield Josephson, based on its findings, recommended that, if the identified revenue gap was to be reduced, fees should be increased by more than annual cost of living adjustments over a period of time;

WHEREAS, in each year from 2005 through and including 2018, the Board approved amendments to Regulation 3 – Fees to increase fees to address this revenue gap and to move toward full alignment between permit fee revenues and associated District permit-related activities and services;

WHEREAS, in September 2010, the District contracted with Matrix Consulting Group to complete an updated Cost Recovery and Containment Study (“2011 Cost Recovery and Containment Study”) based on cost and revenue data for FYE 2010;

WHEREAS, the 2011 Cost Recovery and Containment Study indicated that a significant cost recovery gap continued to exist, with fee revenues for FYE 2010 covering only 62 percent of the direct and indirect costs of program costs;

WHEREAS, in the 2011 Cost Recovery and Containment Study, Matrix Consulting Group recommended that the District adopt a Cost Recovery Policy to guide future fee amendments;

WHEREAS, on March 7, 2012, the Board adopted a Cost Recovery Policy (“2012 Cost Recovery Policy”) that provides as a general policy that the District should fully recover the costs of regulatory program activities by assessing fees to regulated entities, that the District should amend Regulation 3 – Fees in order to increase the overall recovery of the District’s direct and indirect costs of program costs to 85 percent by the end of FYE 2016, and further, that the District should continue to amend specific fee schedules in consideration of cost recovery analyses conducted at the fee schedule level, with larger increases adopted for schedules with larger cost recovery gaps;

WHEREAS, in September 2017, the District contracted with Matrix Consulting Group to complete an updated Cost Recovery and Containment Study (“2018 Cost Recovery and Containment Study”) based on cost and revenue data for FYE 2017;

WHEREAS, a primary focus of the 2018 Cost Recovery and Containment Study was to improve the District’s accounting for indirect costs and overhead in its cost recovery efforts;

WHEREAS, District Staff have prepared an update of the 2018 Cost Recovery and Containment Study using the methodology established by Stonefield Josephson, Inc. and updated by Matrix Consulting Group based on cost and revenue data for FYE 2018 (“2019 Cost Recovery and Containment Study”);

WHEREAS, the 2019 Cost Recovery and Containment Study indicates that a significant cost recovery gap continues to exist with fee revenues for FYE 2018 covering only 84.33 percent of the direct and indirect costs of program costs, and falling short of the cost recovery goal for FYE 2016 established in the 2012 Cost Recovery Policy;

WHEREAS, the Board of Directors has determined for FYE 2020 there is a need to increase fees to further reduce the misalignment between permit fee revenues and associated District permit-related activities and services and to further reduce the misalignment between fee revenues for non-permitted sources and associated District activities and services related to those sources;

WHEREAS, District staff proposed increased fees based in part on the magnitude of the cost recovery gap for certain non-permitted sources and existing fee schedules as identified in the 2018 Cost Recovery and Containment Study and in accordance with the 2012 Cost Recovery Policy;

WHEREAS, District staff discussed the proposed amendments to Regulation 3 – Fees at a public workshop and simultaneous webcast on February 19, 2019;

WHEREAS, the Budget and Finance Committee of the Board of Directors held a regularly scheduled public meeting on March 22, 2019, at which the proposed amendments to Regulation 3 were discussed and at which oral or written presentations could be made on the subject of the proposed amendments;

WHEREAS, on March 28, 2019, the District transmitted the text of the proposed amendments to Regulation 3 to the California Air Resources Board;

WHEREAS, on March 30, 2019, District staff published in newspapers the notice of public hearings required by Health and Safety Code sections 40725 and also distributed and published on the District’s website a request for public comments and input on the proposed amendments to Regulation 3;

WHEREAS, the Board of Directors of the Bay Area Air Quality Management District held a public hearing on May 1, 2019, to consider the proposed amendments to Regulation 3 in accordance with all provisions of law;

WHEREAS, an additional public hearing is required by Health and Safety Code section 41512.5 for fees applicable to sources not included within the District's permit system, specifically, the proposed amendment of the following fee schedules: Schedule L: Asbestos Operations, Schedule Q: Excavation of Contaminated Soil and Removal of Underground Storage Tanks, Schedule R: Equipment Registration Fees, Schedule S: Naturally Occurring Asbestos Operations, Schedule U: Indirect Source Fees and Schedule V: Open Burning;

WHEREAS, the Board of Directors of the Bay Area Air Quality Management District held a second public hearing on June 5, 2019, to consider the proposed amendments to Regulation 3 related to non-permitted sources in accordance with all provisions of law;

WHEREAS, the Board of Directors obtains its authority to adopt, amend or repeal rules and regulations from sections 40702, 42311, 42311.2, 41512.7, 42364 and 40725 through 40728 of the Health & Safety Code and Title 40, Code of Federal Regulations, Part 70.9;

WHEREAS, the Board of Directors has determined that the proposed amendments to Regulation 3 are written or displayed so that its meaning can be easily understood by the persons directly affected by it;

WHEREAS, the Board of Directors has determined that the proposed amendments to Regulation 3 are in harmony with, and not in conflict with or contradictory to, existing statutes, court decisions, or state or federal regulations;

WHEREAS, the Board of Directors has determined that the proposed amendments to Regulation 3 do not impose the same requirements as any existing state or federal regulation and are necessary and proper to execute the power and duties granted to and imposed upon the District;

WHEREAS, the Board of Directors by adopting the proposed amendments to Regulation 3 is implementing, interpreting and making specific the provisions of Health & Safety Code section 42311 (fee schedule for district programs), section 41512.7 (allowable increases to authority to construct and permit to operate fees), and section 42364 (fees schedule for hearing board review of permit appeals);

WHEREAS, District staff has evaluated the proposed amendments to Regulation 3 and has determined that the proposed rulemaking project is statutorily exempt from the requirements of CEQA pursuant to Public Resources Code section 21080, subparagraph (b)(8) (the establishment, modification, structuring, restructuring, or approval of rates, tolls, fares or other charges by public agencies); and CEQA Guidelines section 15273 (statutory exemption for rates, tolls, fares and charges);

WHEREAS, District staff has determined that a socioeconomic analysis of the proposed amendments to Regulation 3 pursuant to Health & Safety Code section 40728.5 is not required because the amendments will not significantly affect air quality or emissions limitations within the meaning of that section;

WHEREAS, District staff has determined that an incremental cost-effectiveness analysis of the proposed amendments to Regulation 3 pursuant to Health & Safety Code section 40920.6 is not required because the amendments do not impose best available retrofit control requirements;

WHEREAS, District staff has prepared and presented to this Board, a detailed staff report relative to the subject matter of the proposed amendment which is incorporated by reference and attached hereto;

WHEREAS, District staff recommends adoption of the proposed amendments to Regulation 3 and its associated fee schedules; and

WHEREAS, this Board concurs with District staff's recommendations and desires to adopt the proposed amendments to Regulation 3 and associated schedules as described above and set forth in Attachment A hereto.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the Bay Area Air Quality Management District does hereby adopt, pursuant to the authority granted by law, the proposed amendments to Regulation 3 – Fees as set forth in Attachment A hereto and discussed in the staff report with instructions to staff to correct any typographical or formatting errors before final publication of the text of the proposed amended rule as adopted.

BE IT FURTHER RESOLVED that the effective date of the proposed amendments attached hereto shall be July 1, 2018.

BE IT FURTHER RESOLVED, that the Board of Directors of the Bay Area Air Quality Management District does hereby approve the filing of a CEQA Notice of Exemption for the proposed amendments to Regulation 3 – Fees.

3-402 Single Anniversary Date: The APCO may assign a single anniversary date to a facility on which all its renewable permits to operate expire and will require renewal. Fees will be prorated to compensate for different time periods resulting from change in anniversary date.

3-403 Change in Operating Parameters: See Section 2-1-404 of Regulation 2, Rule 1.

3-404 Deleted June 7, 2000

3-405 Fees Not Paid: If an applicant or owner/operator fails to pay the fees specified on the invoice by the due date, the following procedure(s) shall apply:

- 405.1 Authority to Construct: The application will be cancelled, but can be reactivated upon payment of fees.
- 405.2 New Permit to Operate: The Permit to Operate shall not be issued, and the facility will be notified that operation, including startup, is not authorized.
 - 2.1 Fees received during the first 30 days following the due date must include a late fee equal to 10 percent of all fees specified on the invoice.
 - 2.2 Fees received more than 30 days after the due date must include a late fee equal to 25 percent of all fees specified on the invoice.
- 405.3 Renewal of Permit to Operate: The owner or operator of a facility must renew the Permit to Operate in order to continue to be authorized to operate the source. Permit to Operate Fees for the Permit Renewal Period shall be calculated using fee schedules in effect on the Permit to Operate Renewal Date. The permit renewal invoice will include all fees to be paid in order to renew the Permit to Operate, as specified in Section 3-327. If not renewed as of the date of the next Permit Renewal Period, a Permit to Operate lapses and further operation is no longer authorized. The District will notify the facility that the permit has lapsed. Reinstatement of lapsed Permits to Operate will require the payment of all unpaid prior Permit to Operate fees and associated reinstatement fees for each unpaid prior Permit Renewal Period, in addition to all fees specified on the permit renewal invoice.
- 405.4 Reinstatement of Lapsed Permit to Operate: To reinstate a Permit to Operate, the owner or operator must pay all of the following fees:
 - 4.1 The applicable Permit to Operate Fees for the current year, as specified in Regulation 3-327, and the applicable reinstatement fee, if any, calculated as follows:
 - 4.1.1 Fees received during the first 30 days following the due date must include all fees specified on the permit renewal invoice plus a reinstatement fee equal to 10 percent of all fees specified on the invoice.
 - 4.1.2 Fees received more than 30 days after the due date, but less than one year after the due date, must include all fees specified on the permit renewal invoice plus a reinstatement fee equal to 25 percent of all fees specified on the invoice.
 - 4.2 The applicable Permit to Operate Fees specified in Regulation 3-327 for each prior Permit Renewal Period for which all Permit to Operate Fees and associated reinstatement fees have not been paid. Each year's Permit to Operate Fee shall be calculated at the fee rates in effect on that year's Permit to Operate Renewal

Date. The reinstatement fee for each associated previously-unpaid Permit to Operate Fee shall be calculated in accordance with Regulation 3-405.4.1 and 4.1.2.

Each year or period of the lapsed Permit to Operate is deemed a separate Permit Renewal Period. The oldest outstanding Permit to Operate Fee and reinstatement fees shall be paid first.

405.5 **Registration and Other Fees:** Persons who have not paid the fee by the invoice due date, shall pay the following late fee in addition to the original invoiced fee. Fees shall be calculated using fee schedules in effect at the time of the fees' original determination.

5.1 Fees received during the first 30 days following the due date must include an additional late fee equal to 10 percent of all fees specified on the invoice.

5.2 Fees received more than 30 days after the due date must include an additional late fee equal to ~~50~~25 percent of all fees specified on the invoice.

In the event the APCO requires such an estimated advance payment to be made, the applicant will be provided with a full accounting of the costs actually incurred by the District in connection with the District's performance of its environmental evaluation and the preparation of any required environmental documentation.

**SCHEDULE A
ATTACHMENT I
EXCESS EMISSION FEE**

A. General

- (1) Each applicant or petitioner for a variance from these Rules and Regulations shall pay to the Clerk or Deputy Clerk of the Hearing Board, in addition to the other filing fees required in Schedule A, an emission fee based on the total weight of emissions discharged, per source or product, other than those described in division (B) below, during the variance period in excess of that allowed by these rules in accordance with the schedule set forth in Table I.
- (2) Where the total weight of emission discharged cannot be easily calculated, the petitioner shall work in concert with District staff to establish the amount of excess emissions to be paid.
- (3) In the event that more than one rule limiting the discharge of the same contaminant is violated, the excess emission fee shall consist of the fee for violation which will result in the payment of the greatest sum. For the purposes of this subdivision, opacity rules and particulate mass emissions shall not be considered rules limiting the discharge of the same contaminant.

B. Excess Visible Emission Fee

Each applicant or petitioner for a variance from Regulation 6 or Health and Safety Code Section 41701 shall pay to the Clerk or Deputy Clerk of the Hearing Board, in addition to the filing fees required in Schedule A and the excess emission fees required in (A) above (if any), an emission fee based on the difference between the percent opacity allowed by Regulation 6 and the percent opacity of the emissions allowed from the source or sources operating under the variance, in accordance with the schedule set forth in Table II.

In the event that an applicant or petitioner is exempt from the provisions of Regulation 6, the applicant or petitioner shall pay a fee calculated as described herein above, but such fee shall be calculated based upon the difference between the opacity allowed under the variance and the opacity allowed under the provisions of Health and Safety Code Section 41701, in accordance with the schedule set forth in Table II.

C. Applicability

The provisions of subdivision (A) shall apply to all variances that generate excess emissions.

D. Fee Determination

- (1) The excess emission fees shall be calculated by the petitioner based upon the requested number of days of operation under variance multiplied by the expected excess emissions as set forth in subdivisions (A) and (B) above. The calculations and proposed fees shall be set forth in the petition.
- (2) The Hearing Board may adjust the excess emission fee required by subdivisions (A) and (B) of this rule based on evidence regarding emissions presented at the time of the hearing.

E. Small Businesses

- (1) A small business shall be assessed twenty percent (20%) of the fees required by subdivisions (A) and (B), whichever is applicable. "Small business" is defined in the Fee Regulation.
- (2) Request for exception as a small business shall be made by the petitioner under penalty of perjury on a declaration form provided by the Executive Officer which shall be submitted to the Clerk or Deputy Clerk of the Hearing Board at the time of filing a petition for variance.

F. Group, Class and Product Variance Fees

Each petitioner included in a petition for a group, class or product variance shall pay the filing fee specified in Schedule A, and the excess emission fees specified in subdivisions (A) and (B), whichever is applicable.

G. Adjustment of Fees

If after the term of a variance for which emission fees have been paid, petitioner can establish, to the satisfaction of the Executive Officer/APCO, that emissions were actually less than those upon which the fee was based, a pro rata refund shall be made.

H. Fee Payment/Variance Invalidation

- (1) Excess emission fees required by subdivisions (A) and (B), based on an estimate provided during the variance Hearing, are due and payable within fifteen (15) days of the granting of the variance. The petitioner shall be notified in writing of any adjustment to the amount of excess emission fees due, following District staff's verification of the estimated emissions. Fee payments to be made as a result of an adjustment are due and payable within fifteen (15) days of notification of the amount due.
- (2) Failure to pay the excess emission fees required by subdivisions (A) and (B) within fifteen (15) days of notification that a fee is due shall automatically invalidate the variance. Such notification may be given by personal service or by deposit, postpaid, in the United States mail and shall be due fifteen (15) days from the date of personal service or mailing. For the purpose of this rule, the fee payment shall be considered to be received by the District if it is postmarked by the United States Postal Service on or before the expiration date stated on the billing notice. If the expiration date falls on a Saturday, Sunday, or a state holiday, the fee payment may be postmarked on the next business day following the Saturday, Sunday, or the state holiday with the same effect as if it had been postmarked on the expiration date.

SCHEDULE OF EXCESS VISIBLE EMISSION FEE**

For each source with opacity emissions in excess of twenty percent (20%), but less than forty percent (40%) (where the source is in violation of Regulation 6 and California Health and Safety Code Section 41701), the fee is calculated as follows:

$$\text{Fee} = (\text{Opacity} * \text{equivalent} - 20) \times \text{number of days allowed in variance} \times \text{\$5.965-18}$$

For each source with opacity emissions in excess of forty percent (40%) (where the source is in violation of Regulation 6 and California Health and Safety Code Section 41701), the fee is calculated as follows:

$$\text{Fee} = (\text{Opacity} * \text{equivalent} - 40) \times \text{number of days allowed by variance} \times \text{\$5.965-18}$$

- * Where "Opacity" equals maximum opacity of emissions in percent (not decimal equivalent) allowed by the variance. Where the emissions are darker than the degree of darkness equivalent to the allowed Ringelmann number, the percentage equivalent of the excess degree of darkness shall be used as "opacity."

TOXIC INVENTORY FEES
(Adopted October 21, 1992)**

For each stationary source emitting substances covered by California Health and Safety Code Section 44300 *et seq.*, the Air Toxics "Hot Spots" Information and Assessment Act of 1987, which have trigger levels listed in Table 2-5-1, a fee based on the weighted emissions of the facility shall be assessed based on the following formulas:

- 4.
1. A fee of \$5 for each gasoline product dispensing nozzle in a Gasoline Dispensing Facility; or
2. A fee calculated by multiplying the facility's weighted toxic inventory (w_i) by the following factor:

Air Toxic Inventory Fee Factor	\$0.80 per weighted pound per year
--------------------------------	------------------------------------

Using the last reported data, the facility's weighted toxic inventory (w_i) is calculated as a sum of the individual TAC emissions multiplied by either the inhalation cancer potency factor (CP, in kilogram-day/milligram) for the TAC times 28.6 if the emission is a carcinogen, or by the reciprocal of the inhalation chronic reference exposure level (CREL) for the TAC (in cubic meters/microgram) if the emission is not a carcinogen, using the CP and CREL weighting factors listed in Table 2-5-1.

- A fee of \$5 for each gasoline product dispensing nozzle in the facility, if the facility is a Gasoline Dispensing Facility; or
2. A fee of \$88 if the facility has emissions in the current Toxic Emissions Inventory which are greater than or equal to 50 weighted pounds per year and less than 1000 weighted pounds per year; or
3. A fee of $\$88 + 0.33 \times (w_i - 1000)$ if the facility has emissions in the current Toxic Emissions Inventory which are greater than or equal to 1000 weighted pounds per year;

where the following relationships hold:

w_i = facility weighted emissions for facility i ; where the weighted emission for the facility shall be calculated as a sum of the individual emissions of the facility multiplied by either the inhalation cancer potency factor (CPF, in kilogram-day/milligram) for the substance times 28.6 if the emission is a carcinogen, or by the reciprocal of the inhalation chronic reference exposure level (REL_c) for the substance (in cubic meters/microgram) if the emission is not a carcinogen [use CPF and REL as listed in Table 2-5-1];
