Climate Tech Marketplace showcases emerging technologies to reduce climate change

SAN FRANCISCO – The Bay Area Air Quality Management District is hosting an expo and networking event to showcase emerging climate technologies for the commercial, industrial, and transportation sectors.

Attendees will include companies, government-sector, utilities, industrial facilities, fleet managers, transportation agencies, investors and public and private financing institutions. Attendees will have an opportunity to connect with different sectors and experience technologies that benefit the climate and spur economic growth. This is an affiliate event of the 2018 Global Climate Action Summit.

- WHAT:** Showcase for cutting edge climate-friendly technologies
- WHERE:** Bay Area Metro Center atrium, 375 Beale Street, San Francisco
- WHEN:** Thursday, September 13, from 4:00 p.m. – 7:00 p.m.
- WHY:** Connect with new climate technology providers and early adopters
- WHO:** Business, government, industry, finance leaders
- VISUALS:** Technology displays include: virtual reality booth, off grid energy systems, innovative battery technologies, fuel cells, zero emission vehicles, solar steam to power demo, and more.
