Winter Spare the Air Alert called for Saturday, December 15

Use of wood-burning devices is prohibited

SAN FRANCISCO – The Bay Area Air Quality Management District is issuing the season’s fifteenth Winter Spare the Air Alert for Saturday, December 15, which bans burning wood, manufactured fire logs or any other solid fuel, both indoors and outdoors for 24 hours.

Winds are expected to shift southeast and bring smoke from the San Joaquin Valley, in addition to local air pollution, that will cause unhealthy air quality in the region.

“During the recent Camp Fire, Bay Area residents experienced how quickly smoke can saturate the region and cause significant health impacts,” said Jack Broadbent, executive officer of the Bay Area Air District. “Like wildfire smoke, smoke from the 1.4 million fireplaces in the region pollutes our air. It’s vital that all Bay Area residents not burn wood during this Winter Spare the Air Alert to help reduce pollution that harms us all.”

It is illegal for Bay Area residents and businesses to use their fireplaces, woodstoves, pellet stoves, outdoor fire pits or any other wood-burning devices during a Winter Spare the Air Alert. Exemptions are available for homes without permanently installed heating, where woodstoves or fireplaces are the only source of heat. Anyone whose sole source of heat is a wood-burning device must use an EPA-certified or pellet-fueled device that is registered with the Air District to qualify for an exemption. An open-hearth fireplace no longer qualifies for an exemption.

Like cigarette smoke, wood smoke contains fine particles and carcinogenic substances that make the air harmful to breathe inside and outside the home. Wood smoke is the major source of air pollution in the Bay Area in the wintertime and is especially harmful to children, the elderly, and people with respiratory conditions.

First-time violators will be given the option of taking a wood smoke awareness class, online or by mail, to learn about the hazards of wood smoke pollution in lieu of paying a \$100 ticket. Second violations will result in a \$500 ticket, and subsequent ticket amounts will be higher.

The public must check before they burn during the Winter Spare the Air season, which runs from November 1 through February 28. The daily burn status can be found:

- **Via text alerts! To sign up, text the word “START” to the number 817-57**
- On the Air District Web sites: www.baaqmd.gov or www.sparetheair.org

- Via the toll-free hotline 1-877-4-NO-BURN (complaints can also be filed via the hotline)
- By signing up for AirAlerts at www.sparetheair.org or phone alerts at 1-800-430-1515
- Via the Spare the Air iPhone and Android Apps

In the winter, wood smoke from the 1.4 million fireplaces and wood stoves in the Bay Area is the single largest source of air pollution, contributing about one-third of the harmful fine particulate pollution in the air. One fireplace burning can pollute an entire neighborhood. Exposure to wood smoke—like cigarette smoke—has been linked to serious respiratory illnesses and even increased risk of heart attacks. Breathing fine particulate accounts for more than 90 percent of premature deaths related to air pollution.
