## **Air District issues Spare the Air Alert for smog for Thursday**

*High temperatures expected to create smoggy conditions*

**SAN FRANCISCO** – The Bay Area Air Quality Management District is issuing the seventh Spare the Air Alert for smog on Thursday, October 19.

Air quality is forecast to be unhealthy **tomorrow, Thursday, October 19**. High pressure over the region is expected to produce light offshore winds and high temperatures across the Bay Area. These conditions, combined with motor vehicle exhaust, will produce unhealthy ozone levels.

Spare the Air Alerts are issued when ozone pollution is forecast to reach unhealthy levels. Ozone can cause throat irritation, congestion and chest pain. It can trigger asthma, inflame the lining of the lungs and worsen bronchitis and emphysema. Long-term exposure can reduce lung function. Ozone pollution is particularly harmful for young children, seniors and those with respiratory and heart conditions. When a Spare the Air Alert is issued, outdoor exercise should be undertaken only in the early morning hours when ozone concentrations are lower.

To find out when a Spare the Air Alert is in effect, residents can register for email AirAlerts at [www.sparetheair.org](http://www.sparetheair.org), call 1(800) HELP-AIR, download the Spare the Air App or connect with Spare the Air on Facebook or Twitter.

The [Bay Area Air Quality Management District](http://www.baaqmd.gov) is the regional agency responsible for protecting air quality in the nine-county Bay Area. Connect with the Air District via [Twitter](#), [Facebook](#) and [YouTube](#). For more information about Spare the Air, visit [www.sparetheair.org](http://www.sparetheair.org).
