DIY AIR CLEANER TO REDUCE WILDFIRE SMOKE INDOORS

ASSEMBLY

- 1. Check the filter for the direction of air flow, marked on side of filter.
- 2. Attach filter to back of box fan using duct tape to create a seal between fan and filter.
- 3. Run fan for 30 minutes to 1 hour to filter air in a standard size room. Do not run for too long or overnight, as this may cause overheating. Do not leave unattended.
- **4.** Replace filters when dirty.
