Bay **REPAIR**

Bay Area Air District

$66.5 Million invested in Benicia and surrounding communities

$66,540,000

Local Community Benefit Fund Round 1

$40,000,000	$25,840,580	$699,420
Benicia Catalyst Grants	Benicia Opportunity Grants	Benicia Seed Grants

$30 Million | City of Benicia

Clean Energy

- Electrify heating at key municipal facilities.
- Upgrade and maintain municipal solar systems.
- Reduce fossil fuel use in city operations.

Clean Mobility

- Add electric police and fire vehicles.
- Deploy an electric fire engine and charging.
- Expand public EV charging and active transportation.

Community Health

- Plant approximately 600 trees.
- Improve parks and shoreline access.
- Strengthen wildfire preparedness and air monitoring.

Just Economic Transition

- Plan for a cleaner, more diverse economy.
- Update long-range planning and industrial zoning.
- Support workforce transition and clean industry.

$10 Million | Benicia Unified School District

Investing in eight campuses

Healthier, more energy-efficient schools

- Improve indoor air quality with electric heat pumps and MERV 15 filtration.
- Improve energy efficiency with new windows and door and window sensors.
- Create healthier outdoor spaces with trees and climate-resilient landscaping.

About Bay REPAIR

The Air District adopted the Community Benefits Penalty Funds Policy in 2024 to reinvest penalties from air quality violations into impacted communities. Through Bay REPAIR, or Reinvesting Penalties for Air Improvement and Resilience, more than $131 million will be reinvested across the Bay Area. $105 million has been awarded for community-led projects in the first round of the Local Community Benefits Fund. The Air District awarded $105 million to support community-led projects through the first round of the Local Community Benefits Fund.
