

APPENDIX A

GLOSSARY

A #xxxx - Bay Area Air Quality Management District permit application number.

BAAQMD - Bay Area Air Quality Management District.

BACT - Best Available Control Technology.

CAPCOA - California Air Pollution Control Officers Association.

CARB - California Air Resources Board.

CRF - Capital Recovery Factor.

MACT - Maximum Available Control Technology.

n/a - "Not Applicable": For example, the pollutant in question is not a significant emission for the source category under consideration.

n/d - "No Determination": No BACT or TBACT determination has been made to date for the source category or BACT or TBACT category under consideration.

n/s - "Not Specified": A BACT or TBACT determination has been made but no specific emission limitation has been set or the detailed equipment/process technology has not been specified.

NPOC - Non-Precursor Organic Compound: Any organic compound designated by the District as having negligible photochemical reactivity (see BAAQMD Rules and Regulations Section 2-1-207 for complete list of specific halogenated organic compounds).

PM10 - Particulate Matter with size less than 10 micron nominal diameter.

PM2.5 - Particulate Matter/Particulate Matter with size less than 2.5 micron nominal diameter.

POC - Precursor Organic Compound: Any organic compound that photochemically reacts in the atmosphere to form ozone (Any organic compound as defined in BAAQMD Rules and Regulations Section 1-233 excepting the non-precursor organic compounds defined in Section 2-1-207).

RACT - Reasonably Available Control Technology.

SCAQMD - South Coast Air Quality Management District

TBACT - Best Available Control Technology for Toxics.

VOC - Volatile Organic Compound: Any organic compound, as described in BAAQMD Rules and Regulations Section 1-233, which would be emitted during use, processing, application, curing or drying of a solvent, surface coating, or other material.
