BAY AREA AIR QUALITY MANAGEMENT DISTRICT

PUBLIC NOTICE

December 11, 2019

TO: Parents or guardians of children enrolled at the following school(s):

Bright Horizons at Garner

All residential and business neighbors located within 1,000 feet of the proposed new or modified source(s) of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Applications #28552 and 30019 for the following source(s) of air pollution:

Seven (7) coffee roasters and associated coolers and destoners
Peet's Coffee & Tea, Inc.
2001 Harbor Bay Parkway
Alameda, CA, 94502

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source(s) of air pollution. A description of the proposed project follows:

Peet's Coffee & Tea, Inc. has applied for an Authority to Construct (AC) and/or a Permit to Operate (PO) seven (7) new or modified coffee roasters and associated coolers and destoners. Particulate emissions from the roasters, coolers and destoners will be abated by cyclones. Volatile organic compound and organic toxic air contaminant emissions from the roasters will be abated by thermal oxidizers.

PRELIMINARY EVALUATION

The District has evaluated the permit application for the proposed project and has made a preliminary determination that the project is expected to comply with all applicable District, state, and federal air quality-related regulations, including the health risks resulting from toxic air contaminant emissions. The preliminary recommendation is to issue a permit for this project. After considering all comments received, the District will make a final determination.

ADDITIONAL INFORMATION

If you are interested in getting more information, you may request copies of the District's evaluation report by calling the District at the telephone number listed at the end of this notice. This information is also accessible on the District website at:
