BAY AREA AIR QUALITY MANAGEMENT DISTRICT

PUBLIC NOTICE

March 12, 2024

TO: Parents or guardians of children enrolled at the following school(s):

Iron Horse Middle School

FROM: Bay Area Air Quality Management District

RE: Permit Application #685865 for the following source of air pollution:

Emergency Standby Engine Generator Set
San Ramon Valley Fire District – Station #34
12599 Alcosta Blvd. San Ramon, CA 94583

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site or within a community that is overburdened by air pollution, we notify the public about the proposed project. To comply with Air District requirements, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the Air District for the above referenced source of air pollution. A description of the proposed project follows:

> **San Ramon Valley Fire District – Station #34** has applied for an Authority to Construct and/or Permit to Operate an Emergency Standby Generator powered by a diesel engine that will be used for providing electrical or mechanical work during emergencies, and will be periodically run for maintenance, reliability testing, and/or emissions testing.
>
> **Make: Volvo-Penta**
> **Model: TAD1170VE, Model Year 2023**
> **Rated 320 bhp.**

PRELIMINARY EVALUATION

The Air District has evaluated the permit application for the proposed project and has made a preliminary determination that the project is expected to comply with all applicable District, State, and Federal air quality-related regulations, including the health risks resulting from toxic air contaminant emissions. The preliminary recommendation is to issue a permit for this project. After considering all comments received, the Air District will make a final determination.

ADDITIONAL INFORMATION

The Air District's Community Health Protection Program is focused on reducing air pollution disparities in overburdened communities. For more information on Air District activities in your community, consult the Air District's website at:

https://www.baaqmd.gov/community-health

If you are interested in getting more information about this project, you may obtain a copy of the Air District's evaluation report from the Air District's website at:
