BAY AREA AIR QUALITY MANAGEMENT DISTRICT

PUBLIC NOTICE

July 11th, 2024

TO: All residential and business neighbors located within 1,000 feet of the proposed new source of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #688819 for the following source of air pollution:

Emergency Standby Diesel Generator Engine
Facility ID No. 203332
US EPA - Hayward
23217 Kidder Street, Hayward, CA 94545

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new source of toxic air contaminants located within a community that is overburdened by air pollution, we notify the public about the proposed project. To comply with Air District requirements, we distribute or mail a Public Notice to all residents and businesses located within 1,000 feet of the proposed source.

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source of air pollution. A description of the proposed project follows:

> **US EPA - Hayward** has applied for an Authority to Construct and/or Permit to Operate an Emergency Standby Diesel Generator Engine that will be used for providing electrical or mechanical work during emergencies, and will be periodically run for maintenance, reliability testing, and/or emissions testing.

PRELIMINARY EVALUATION

The District has evaluated the permit application for the proposed project and has made a preliminary determination that the project is expected to comply with all applicable District, state, and federal air quality-related regulations, including the health risks resulting from toxic air contaminant emissions. The preliminary recommendation is to issue a permit for this project. After considering all comments received, the District will make a final determination.

ADDITIONAL INFORMATION

The Air District's Community Health Protection Program is focused on reducing air pollution disparities in overburdened communities. For more information on Air District activities in your community, consult the Air District's website at:

https://www.baaqmd.gov/community-health

If you are interested in getting more information about this project, you may obtain a copy of the District's evaluation report from the Air District's website at:
