January 9, 2012

Ms. Deborah Jordan  
Director, Air Division  
United States Environmental Protection Agency  
75 Hawthorne Street  
San Francisco, CA 94105

Dear Ms. Jordan:

This is to advise you that Bay Area Air Quality Management District is issuing a minor revision to the Major Facility Review Permit for the following facility:

<table>
<thead>
<tr>
<th>Facility</th>
<th>Facility Name</th>
<th>Application</th>
<th>Permit Engineer</th>
<th>City</th>
<th>County</th>
</tr>
</thead>
<tbody>
<tr>
<td>A0017</td>
<td>Lehigh Southwest Cement Company</td>
<td>23663</td>
<td>Thu Bui</td>
<td>Cupertino</td>
<td>Santa Clara</td>
</tr>
</tbody>
</table>

The 45-day EPA review period ended on November 30, 2011 with no comment.

The purpose of this minor revision is to include the operation of two synthetic gypsum feeders (S-223 and S-246). Both synthetic gypsum feeders were installed in 1994, but were not placed in synthetic gypsum service until March of 2010. Lehigh obtained a Permit to Operate for S-223 and S-246 in August 2011 under New Source Review (NSR) application #23594. The synthetic gypsum is used to partially replace the permitted natural gypsum that Lehigh blends with clinker to produce cement.

The District has decided to issue the revised permit incorporating the proposed minor revision. The final permit can be viewed and/or downloaded on the BAAQMD website at [http://www.baaqmd.gov/Divisions/Engineering/Title-V-Permit-Programs/Title-V-Permits.aspx](http://www.baaqmd.gov/Divisions/Engineering/Title-V-Permit-Programs/Title-V-Permits.aspx). We will also send the final permit to you via the Electronic Permit Submittal System. If you have any questions regarding this permit, please call Barry Young, Air Quality Engineering Manager, at (415) 749-4721.

Very truly yours,

Signed by Jeff McKay for Jack P. Broadbent
