San Francisco, CA 94105

Dear Mr. Rios:

A minor revision to the Major Facility Review permit for the following facility is ready for issuance:

Facility No.	Facility Name	Application Number	Permit Engineer	City	County
A0059	University of California, Berkeley	30570	A. Borja	Berkeley	Alameda

The purpose of this minor permit revision is to incorporate the emergency generator, S164, that received an Authority to Construct under NSR Application 30568 into the Major Facility Review permit.

This is a minor permit revision pursuant to Regulation 2, Rule 6, section 215.

Tables II-A, IV-C, and VII-C have been revised to add S164, Emergency Generator.

Section VI, Permit Conditions, has been revised to add S164, Emergency Generator to permit condition #22850.

The applicable requirements and conditions for this engine are similar to the requirements for other engines at this facility.

The EPA comment period ended on December 14, 2020. The Air District did not receive any comments on the proposed minor revision from the applicant, EPA, or ARB.

The final revised Major Facility Review Permit can be obtained on the Air District website at the following address: <http://www.baaqmd.gov/permits/major-facility-review-title-v/title-v-permits>. We will also post the permit to the EPA Central Data Exchange. If you have any questions regarding this proposed permit revision, please contact Dennis Jang, Supervising Air Quality Engineer at djang@baaqmd.gov.

Sincerely,

Pamela J. Leong
Director of Engineering
