Dear Mr. Rios:

The Air District is proposing a minor revision to the Major Facility Review Permit for the following facility.

Facility No.	Facility Name	Application Number	Permit Engineer	City	County
A0059	University of California, Berkeley	30107	B. Cabral	Berkeley	Alameda

The purpose of this minor revision to the Major Facility Review permit for S200 Turbine and S201 Duct Burner is to reflect the replacement of steam injection with low-NOx burners and to delete the combustion of fuel oil at these sources. The project received an Authority to Construct under NSR Application 30106.

This is a minor permit revision pursuant to Regulation 2, Rule 6, section 215. The proposed revisions to the Title V permit have been incorporated into the Statement of Basis.

Tables II A, IV-F, IV-G, VII-F, VII-G, and VII have been revised.

Section VI, Permit Condition 366 has been revised.

If you have any questions regarding this proposed permit revision, please contact Xuna Cai, Senior Air Quality Engineer at xcai@baaqmd.gov.

Sincerely,

Pamela Leong
