Major facilities are required to obtain operating permits under Title V of the 1990 Clean Air Act Amendments, the Federal Operating Permit Program and the Air District's Regulation 2, Rule 6 - Major Facility Review. The permits summarize all air-related requirements that apply to each source of emissions at each facility. There have been no significant changes in emissions at this facility since the current Title V permit was issued.

The Air Pollution Control Officer invites written comment on the proposed renewal Title V permit for the facility listed above. Comments must be received by April 14, 2021. Any interested person may also request a public hearing for this permit.

Major Facility Review Permits are also subject to review by US EPA. If US EPA has not objected to a proposed permit and the Air District has not addressed a public comment in a satisfactory manner, the public may petition US EPA, Region 9, Operating Permits Section at 75 Hawthorne Street, San Francisco, CA 94105, within 60 days after the end of the 45-day US EPA review period, to reconsider the decision to not object to the permit. The beginning and end of the EPA review period can be found on the EPA Region 9 website at:
