The 30-day public comment period for the proposed renewal permit ended on January 12, 2012, and the 45-day EPA review period ended on January 27, 2012. The District did not receive any comments on the proposed renewal permit from the public, EPA, ARB. Two comments were received from the facility, which did not affect the proposed permit.

Several administrative corrections and clarifications were made to the proposed permit following the public comment period. The descriptions of several requirements were corrected in Tables III and IV-A, Table IV-A requirements were clarified by adding some missing citations, and editorial corrections were made to Section X. The specific changes that were incorporated into the final permit are identified in Attachment 1.

The District has decided to issue the renewal permit. The final permit can be viewed and/or downloaded on the BAAQMD website at <http://www.baaqmd.gov/Divisions/Engineering/Title-V-Permit-Programs/Title-V-Permits.aspx>. We will also send the final permit to you via the Electronic Permit Submittal System.
