Dear Ms. Adams:

This is to advise you that the Bay Area Air Quality Management District is issuing an administrative amendment to the Major Facility Review permit for the following facility.

Facility Number	Plant Name	Application Number	Permit Engineer	City	County
A1820	Martinez Cogen, L.P.	27903	T. Hull	Martinez	Contra Costa

This amendment was requested by the facility and includes changes to the permit as follows:

- Correct BAAQMD address on title page and in Section I.F.
- Clarify monitoring and record keeping procedures for heat content of fuel gases fired in Gas Turbines S-10 and S-11.

Pursuant to BAAQMD Regulation 2-6-201, this qualifies as an administrative amendment because it involves "changes in recordkeeping format that are not relaxations of applicable requirements".

The final permit can be viewed on the BAAQMD website at <http://www.baaqmd.gov/permits/major-facility-review-title-v/title-v-permits>. We will also send the documents to you via the EPA Central Data Exchange. If you have any questions regarding this project, please call Dennis Jang, Acting Air Quality Engineering Supervisor, at (415) 749-4707.

Sincerely yours,

Signed by Pamela J. Leong
