Connect with the
Bay Area Air District:

June 7, 2021

Mr. Gerardo Rios
Permits Office Chief
United States Environmental Protection Agency Region 9
Air-3-1
75 Hawthorne Street
San Francisco, CA 94105

Dear Mr. Rios:

This is to advise you that the Bay Area Air Quality Management District is issuing significant and minor revisions to the Major Facility Review permit for the following facility:

Facility Number	Facility Name	Application Numbers	Permit Engineer	City	County
B3289	Los Esteros Critical Energy Facility, LLC	26519, 31101	Brenda Cabral	San Jose	Santa Clara

The purpose of the proposed significant permit revision is to incorporate reductions in monitoring. The minor revision is related to an increase in the maximum rated capacity of S11 Cooling Tower from 73,000 gallons per minute to 90,000 gallons per minute.

The public comment period ended on January 15, 2021 and the EPA review period ended on January 29, 2021. We did not receive any comments on the proposed revisions from the EPA or ARB. One comment letter was received from the Sierra Club Loma Prieta Chapter and the Santa Clara Valley Audubon Society and a second comment letter was received from the Organización Comunidad de Alviso. The Air District has not made any changes to the permit in response to those comments.

In addition, the Air District is making changes to the responsible official and designated representative in response to Application 31101. These are administrative amendments in accordance with BAAQMD Regulation 2-6-201.

The final permit can be viewed on the BAAQMD website at <http://www.baaqmd.gov/permits/major-facility-review-title-v/title-v-permits>. We will also post the permit to the EPA Central Data Exchange. The public comments and the Air District responses are attached. If you have any questions regarding this project, please contact Dennis Jang, Supervising Air Quality Engineer, at djang@baaqmd.gov.

Sincerely yours,

Jack P. Broadbent
Executive Officer/Air Pollution Control Officer
