RE: Semiannual Monitoring and Deviation Report: 1/1/23 – 6/30/23
Ameresco Half Moon Bay LLC, Plant #B7040
Title V Permit - Condition I.F (Regulation 2-6-502)

Dear Director,

Ameresco Half Moon Bay LLC is submitting this Semiannual Monitoring and Deviation Report in accordance with Condition I.F (Regulation 2-6-502) of Title V Permit #B7040 issued on December 14, 2020. As required, this report covers the compliance period of January 1, 2023 through June 30, 2023.

This report is certified by the facility Responsible Official (RO). If you have any questions on this submittal or require additional information, please contact me or Rebecca Sherwood at rsherwood@ameresco.com or (508) 598-3049.

Sincerely,
Ameresco Half Moon Bay LLC;

FACILITY NAME Ameresco Half Moon Bay LLC **FACILITY #** 17040

STATEMENT OF COMPLIANCE:

I certify the following:

Read each statement carefully and initial each box for confirmation.

☒ ***Based on information and belief formed after reasonable inquiry, the source(s) identified in the Applicable Requirements and Compliance Summary form that is(are) in compliance will continue to comply with the applicable requirement(s);***

☒ ***Based on information and belief formed after reasonable inquiry, the source(s) identified in the Applicable Requirements and Compliance Summary form will comply with future-effective applicable requirement(s), on a timely basis;***

☒ ***Based on information and belief formed after reasonable inquiry, information on application forms, all accompanying reports, and other required certifications is true, accurate, and complete;***

☒ ***All fees required by Regulation 3, including Schedule P have been paid.***

STATEMENT OF NON-COMPLIANCE

Read statement carefully. Initial box for confirmation if statement is true.

I certify the following:

☐ ***Based on information and belief formed after reasonable inquiry, the source(s) identified in the Schedule of Compliance application form that is(are) not in compliance with the applicable requirement(s) will comply in accordance with the attached compliance plan schedule.***

Summary of Deviations

Applicable Requirement	Permit Unit(s)	Description of Deviation	Probable Cause of Deviation	Corrective / Preventative Actions
BAAQMD Rules 1-523 and 8-34-508 (RCA 08R32)	S-1, S-2, S-3, S-4, S-5, S-6 (Engines 1-6)	From January 13, 2023 at ~12:55PM PT through March 10, 2023 at ~8:18AM PT, valid landfill gas flow data was not recorded by the prechamber compressor's flow meter. The prechamber compressor feeds a small amount of gas (< 1%) to the six engines (S-1 through S-6), and the data lost during this deviation period was back-calculated/estimated using other plant operational data. *Note: BAAQMD was initially notified of this event on March 10, 2023, and after receiving the 10- and 30-Day Reports, confirmed that no violation occurred. However, Ameresco believed it was still appropriate to include in this report.	On January 13, 2023, the prechamber compressor flow meter manufacturer, Emerson, was on site to service/calibrate the unit. Upon completion, the technician accidentally forgot to switch the meter out of "test mode", which prevented it from being able to register actual data. Therefore, Ameresco believes that this issue, caused by human error, is an isolated incident.	Immediately upon discovery of the prechamber compressor flow meter issues, facility personnel contacted Emerson for assistance with diagnosing and repairing the issues. Emerson provided guidance on how to take the flow meter out of "test mode" and reset it. Facility personnel made the recommended adjustments, and shortly thereafter, the flow data resumed recording as normal on March 10, 2023. To enable earlier detection of similar issues moving forward, Ameresco has implemented a more rigid check of the data. No issues or irregularities have been identified since.
