Director, Air Division
United States Environmental Protection Agency Region 9

San Francisco, CA 94105

Dear Ms. Adams:

The District is proposing a minor revision to the Major Facility Review Permit for the following facility.

Facility	Facility Name	Application	Permit Engineer	City	County
B7419	Air Liquide Large Industries, US LP	29172	Carol Lee	Rodeo	Contra Costa

The purpose of this minor permit revision is to incorporate permit condition changes that were issued pursuant to District new source review permit application #29172. The permit condition changes reflect the conversion of a sulfur dioxide mass emission limit of 0.0012 pounds per million British thermal units (lb/MMBTU) to a fuel sulfur content limit of 35 parts per million by volume (ppmv). These permit condition changes do not result in any emission increases or the relaxation of any compliance monitoring requirements.

All proposed revisions are shown in the attached Statement of Basis document.

If you have any questions regarding this proposed permit revision, please contact Dennis Jang, Supervising Air Quality Engineer, by telephone at (415) 749-4707 or email at djang@baaqmd.gov.

Sincerely,

Signed by Pamela J. Leong
