Facility	Facility Name	Application	Permit Engineer	City	County

**MARIN COUNTY**  
Katie Rice

The purpose of this minor permit revision is to incorporate permit condition changes that were issued pursuant to District new source review permit application #29172. The permit condition changes reflect the conversion of a sulfur dioxide mass emission limit of 0.0012 pounds per million British thermal units (lb/MMBTU) to a fuel sulfur content limit of 35 parts per million by volume (ppmv). These permit condition changes do not result in any emission increases or the relaxation of any compliance monitoring requirements.
